Why choose Oxford Brookes?

There are so many great reasons for you to choose Oxford Brookes. Here are just a few for you to consider..

Opportunities are yours to take

“Whenever I wanted to expand, I was given the opportunity. For instance, I wanted to do something more creative and my academic adviser suggested I write for The Tab (Brookes’ online student paper). If there’s a direction you want to take your studies or life in, Brookes will provide the avenue that allows you to do it.”

PETER UTTLEY,
ENGLISH LITERATURE

The future’s bright
91% of full-time undergraduate students are in work or further study 15 months after graduation.

HESA Graduate Outcomes Survey
2018/19 - published July 2021

A home from home

“Brookes has a great atmosphere and that was what first attracted me at the open day. It’s a really positive place where you just feel welcome. There are also loads of opportunities to meet new friends, do things socially, and societies to join.”

CHARLOTTE KNAPP, ANTHROPOLOGY

Time to shine

We are among the **world’s top universities** in 13 individual subject areas.

Rankings by Subject 2021

Global popularity

17% of our students are international, from more than **140 countries.**

HESA 2019/20

www.brookes.ac.uk

Support when you need it

“It was drilled into me in school that, because I was dyslexic, I would always fail on the academic and writing side of education. At Brookes, with extra support, I’ve managed to overcome my previous thinking and it’s allowed me to be as confident in writing as I am at creating art.”

TORI BAKER, FINE ART

Let's get you started

From researching courses to attending open days, the process of applying for university can seem daunting but it doesn't have to be.

1. Starting the journey: research

Order prospectuses, look into the courses that interest you and what those courses could lead onto.

2. Find out more about student life

Check out our social media accounts or chat with student ambassadors on our website.

3. Open Days

Come and visit us on an open day. It's a great way to hear from the academics who will teach you, and see the accommodation you could end up living in.

4. Application preparation

A strong personal statement is an important part of the application process. We're interested in you as an individual, so tell us about yourself and what interests you!

5. Applying

You can apply to university in a variety of ways. UK students should apply through UCAS, whereas international students can apply via UCAS or directly through our website.

8. Student finance

If you plan to apply for student finance you should apply as soon as possible. Advice on fees and funding can be found on pages 154 - 156. If you are an international student, you will also need to pay a tuition fee deposit.

6. English language requirements

If your main language is not English, you will need to show us that your English is at the right level to enable you to study here successfully. See pages 148 - 149 for further information.

9. Accommodation

Once you've been made an offer, we'll contact you about accommodation options. You can choose to live in university halls, rent from a private landlord or live at home. Find out more about accommodation options on pages 36 - 38.

7. Applicant Days

If you apply to Oxford Brookes, you will be invited to an applicant event, where you can find out more about your chosen course and explore the university and city.

10. Results and confirmation

Once you have received your results, you will receive an update via UCAS Track letting you know if you have met the terms of the offer.

11. Visas

If you're an international student, you may need to apply for a visa to study here. We will send you guidance on this once your offer is confirmed.

12. Get yourself to Oxford!

The final steps are enrolment and moving in. We run a welcome week of induction activities to help you settle in and make new friends.

Meet our students

Our students love Oxford Brookes for our excellent facilities, stand-out links to industry and placements, and supportive staff.

I would tell someone considering university that it is 100% worth going. It's not just three more years of education - the experiences you get and the contacts you make may impact your life and career forever.

TORI BAKER, FINE ART

“The thing that sets Oxford Brookes apart from other universities has to be its facilities. The John Henry Brookes building is second to none. Adding to that, the sport here at Brookes is some of the best in the country.”

GEORGE LOYD, CRIMINOLOGY

“The academics have really helped me in achieving my end goal, especially with my final projects. They helped me out when I was hitting creative blocks and especially since the second year, they have been pushing me to just exceed my limits.”

ROMEL YARED, ARCHITECTURE

“I am on placement for twelve months and I've been working now for five months at the Charlotte Street Hotel in London. The placement really attracted me to the course because I knew I wanted to get experience in the industry before I went out and graduated.”

EMILIA GENNARD, INTERNATIONAL HOSPITALITY AND TOURISM MANAGEMENT

“The thing that stood out to me about Brookes was its links with the Children's Hospital at the John Radcliffe Hospital. I've been really lucky to have a placement on Tom's Ward, which has been really beneficial to my development.”

DAN POPE, NURSING (CHILDREN'S)

Teaching

Your potential will come alive at Oxford Brookes. Practical teaching that engages you and prepares you for your future career is part of our DNA.

“One of the first things I say in class is you’re going to learn a lot and you’re going to have a lot of fun doing it.”

ANNE-MARIE KILDAY,
PROFESSOR OF CRIMINAL HISTORY

www.brookes.ac.uk

We are among
the world’s top
universities in 13
subject areas.
(QS World University
Rankings 2021)

How we teach

You’ll learn in a variety of ways, with a mix of lectures, seminars and tutorials, plus practical and lab-based sessions on certain courses. You’re also likely to work on group projects, give presentations and carry out research.

Studying independently will be another important part of your degree, you’ll have the responsibility and freedom to study how and where you like. On most courses you can also follow your own interests with optional modules which you choose.

“The tutors here are so supportive and there is a real sense of community between students. Learning becomes a way of life and not just a structured routine.”

EMMA BATES GARCIA, ENGLISH LITERATURE GRADUATE

Engineering students working
on the Formula Student car

Support in your studies

Studying at university can feel like a big change, but at Oxford Brookes we make sure you are supported.

You will have your own academic adviser to help you throughout your course. Student support co-ordinators, located in each subject area, can also help with both academic and personal issues.

If you are an international student, our tutors can support you with any English language needs.

Our specialist team can give you support with dyslexia, disability or specific learning disabilities.

Exceptional teachers

You will learn from some of the best teachers in their subjects. Our lecturers have received a host of awards and accolades including 11 National Teaching Fellowships for outstanding teaching.

Preparing you for your career

We make sure that what you learn in the lecture theatre is useful in the workplace. From doing real-life projects and getting work experience to developing transferable skills – boost your employability and stand out from the crowd.

Careers services

Our careers service at Oxford Brookes is a dedicated team that offers you support to ensure that you get the right job once you graduate. We offer a range of services, such as: one-to-one consultations, interview preparation and CV guides.

The careers team also hosts a series of job fairs annually, giving you the opportunity to meet real employers.

Find out more about our careers service
www.brookes.ac.uk/careers

Find out more about work placements from our students

Our partnerships with industry, business and professions mean there are excellent opportunities for high-quality work placements – great for building your confidence and experience. We also work with smaller local employers creating paid internship opportunities.

For some courses we team you up with your own mentor from industry. These mentors provide one-to-one advice and career guidance.

Many of our lecturers have industry and professional experience. By maintaining these links with industry, the latest knowledge is always applied to real-world practice.

Our students have secured work placements with world-famous brands such as:

- Apple
- BMW Mini
- Great Ormond Street Hospital
- F1 Ferrari
- HarperCollins
- Lloyds Banking Group
- Oxfam
- Oxford University Hospitals NHS Foundation Trust
- Warner Bros
- Williams Advanced Engineering.

“My placement year was at UK Biocentre in Milton Keynes, I worked there as a laboratory technician. It has proven absolutely invaluable in terms of my understanding of how a lab in industry operates and the career range available to a Biomedical Science graduate.”

ANDRADA TOMONI, BIOMEDICAL SCIENCE

Enterprise Support

If you're bursting with business ideas or dream of being your own boss, we will offer you opportunities to realise your ambitions.

With a range of programmes, our Enterprise Support team will nurture your creativity and support and encourage your personal development. We will inspire and help you to build your skills and develop your confidence to kick start your business ideas into reality.

ENTERPRISE PROGRAMMES

Spark – a step-by-step, introduction to business start-up. You will develop an idea into a first stage business venture, and get the opportunity to pitch for £500 seed funding to help make your idea happen.

FUEL – Aimed at those looking to scale up their current business, FUEL is powered by Santander Universities. Over the course of nine weeks you're taken through the skills needed to move your business to the next level.

Bloom – Bloom is a six-week closed coaching group specifically for women where you'll have a safe space to share your ideas and grow your confidence. You'll become part of an invaluable network of like minded women as you move your ideas one step closer to realisation.

“I was quite reluctant to enter onto the programme due to not really having a business and entrepreneur background but I am very happy I made that step. The Spark programme is designed for this and guided me through the challenging and rewarding journey.”

DANIEL SATCH - SPORT AND EXERCISE SCIENCE

Founder of Belvedere Apparel which aims to create sustainable sports wear and gym apparel

If you'd like to read more case studies and find out more about how Enterprise Support can help you, visit our website: www.brookes.ac.uk/enterprise

A whole new world

What if you could experience studying in another country? Well you can! You can choose to study abroad on most courses at Oxford Brookes, in locations in Europe, America, Australia and Japan, to name but a few. You'll make friends and learn about new cultures, while expanding your horizons and building a different outlook for your future.

Why study abroad?

- Experience university life in a different country
- Immerse yourself in another culture for one or two semesters
- Improve your employability and enhance your CV
- Gain new perspectives on the subject you're studying
- Grow in confidence so you stand out from the crowd.

How to apply

The Exchanges team hold information sessions during your first semester at Oxford Brookes, it's the perfect opportunity to find out more about where you can go and what you can study. Once you have applied, we will liaise with your faculty to get approval for your study programme. Find out more online: www.brookes.ac.uk/exchange

Some of the countries you can go to...

“Firstly you get the amazing experience of living and studying abroad – and all that contact with different cultures. Secondly you get confidence – because you know you can tackle the world by yourself.”

Oxford: a city for students

Oxford is an ideal student city. Close to London and well connected but also bursting with things to do, see and experience, you'll enjoy the best of both worlds.

Oxford is in the Top 5 most affordable UK cities for students

NatWest Student Living Index 2021

Historic and magical

Oxford is an Instagrammer's dream. A walk in the city centre can have you feeling like you've wandered onto a film set. With its beautiful buildings, winding lanes and cobbled streets, Oxford is picture perfect.

Inspiration every day

As a student in Oxford, you'll be living and learning in the heart of an economic powerhouse, where research, technology, science and motorsports are thriving. Add to that a lively arts and culture scene and museums and galleries round most corners, you won't fail to be inspired.

Well connected

Oxford is well connected to the rest of the country. Whether you want to visit home, spend the day in London or explore other cities like Bath or Bristol, the M40 is a stone's throw away or you can hop on a bus or train.

Elegant architecture, green spaces, pubs, clubs and a buzzing student community, Oxford has it all. From museum hopping, to shopping in the Westgate or tasting cuisine from around the world, you'll never stop feeling inspired in Oxford.

A street that has it all

Diverse and vibrant, The Cowley Road is packed with places offering food from around the world, great pubs, clubs and music venues. You can search for vintage gems in the charity shops and pick up your international groceries while you're there too.

Beautiful green spaces

You're never far from a beautiful park in Oxford. And if you fancy exploring what the rest of the county has to offer, there are so many places to visit, including The Cotswolds, Waterperry Gardens and Blenheim Palace.

Lazy days

Punting is a unique way to see Oxford from a different angle. Glide leisurely along the idyllic waterways as you sit back and admire the stunning architecture and landscape. Or try it yourself – without falling in!

Experience it all

From small-scale food festivals to huge, sell-out music events and a carnival – there are lots of diverse and exciting things going on in Oxfordshire throughout the year.

Oxford: something for everyone

We know that choosing where to go to university is a big decision and that not all students want the same thing. Happily, Oxford has something for everyone.

1. South Park

Two minutes walk from our Headington Campus, this green space is great for a picnic or lunchtime kick-about.

2. Cowley Road

A vibrant area with places to eat from all corners of the globe. With pubs, bars and cafes, it's a firm favourite with students.

3. O2 Academy Oxford

An iconic Cowley Road venue hosting headline acts, as well as club nights. Brookes Sport student nights take place here every Wednesday during semester time.

4. The Ultimate Picture Palace

Offering student discounts, this is Oxford's first independent cinema, showing everything from the latest blockbusters, to foreign language films and the classics.

5. Punting down the river Cherwell

A quintessentially Oxford experience, punting is a unique way to see the city from the river.

6. Oxford Botanic Gardens

With free entry for Oxford Brookes students, you can explore Britain's oldest botanic garden that has over 6,000 different plant species!

7. Queen's Lane Coffee House

A great place to grab a coffee or slice of cake. Opened in 1654, it's reputed to be the oldest continually working coffee house in the whole of Europe.

8. Westgate Shopping Centre

Find over 100 stores, a cinema, restaurants, cafes, junkyard golf, a gym and much more. There's plenty to see and do, with many places offering student discounts.

9. Modern Art Oxford

Free and open to all, this gallery showcases cutting-edge exhibitions and innovative programmes.

10. Ashmolean Museum

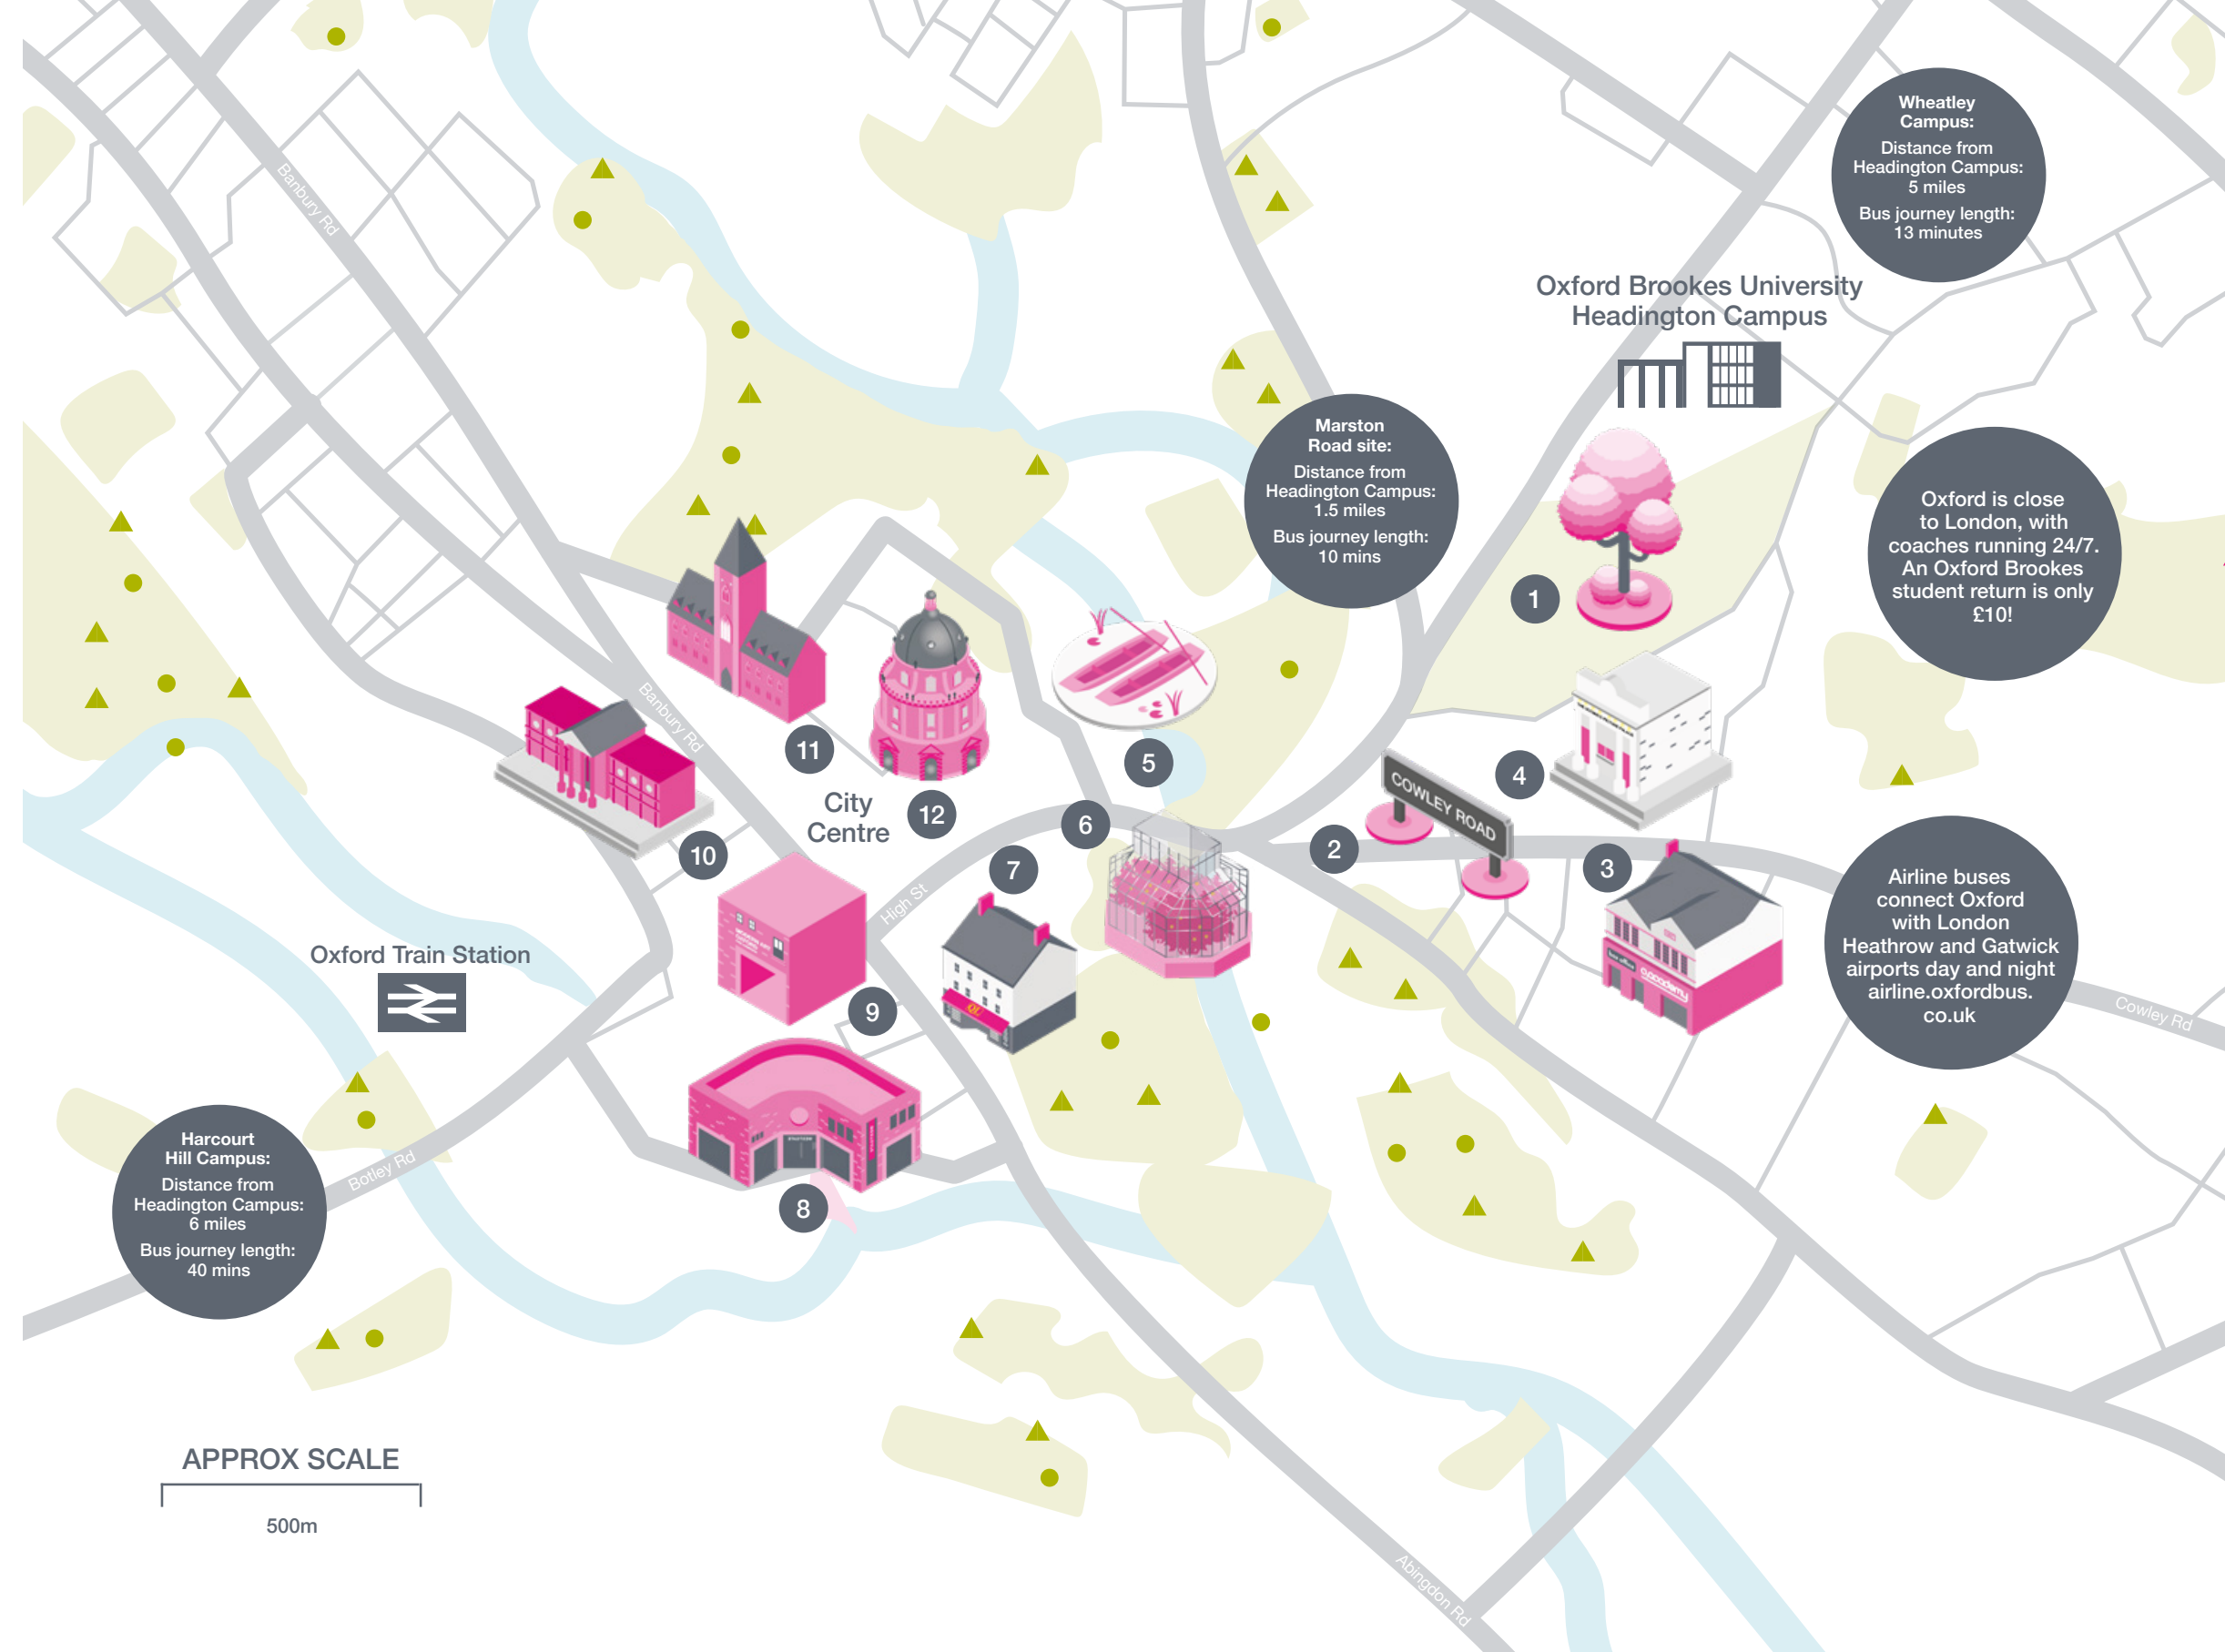

With free entry, this art and archaeology museum has world famous collections, including Egyptian mummies and the largest collection of Raphael drawings.

11. Natural History Museum and Pitt Rivers Museum

From dinosaur skeletons to ancient artifacts – these museums are free to enter and hold more than 5 million specimens!

12. Radcliffe Camera

One of Oxford's most photographed landmarks, the area around here will have you feeling like you've stepped back in time.

What Oxford means to our students...

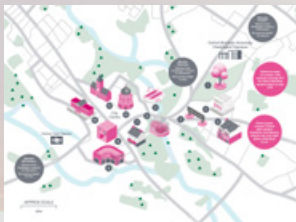

“Oxford is a wonderful city, full of history, people and excitement. It’s a young city as well, so there’s always a lot of events to join in.”

SABRINA ANDRADE,
MEDIA, JOURNALISM & PUBLISHING

“Oxford is a beautiful city. It’s smaller than what I’m used to (London), and I like that. Studying in coffee shops and reading in local parks never fails to make me happy.”

JADA LEOPOLD, JAPANESE STUDIES

BROOKES UNION: HERE FOR YOU

Run by students for students, we represent the student voice so that you can get on and make the most of your time at Oxford Brookes.

Find out more at brookesunion.org.uk

REPPING FOR SUCCESS

We support over

480

academic reps – making sure your degree programme is the best it can be. We also support student networks, enabling students to campaign and build communities together.

FIGHTING YOUR CORNER

Our independent advice team supports students on housing matters, academic issues, student finance and more. In 2019/20, we advised

4,500+ students

with

£840,000+

recovered for students!

STRESS LESS

We help support students with their mental health and wellbeing; whether that’s by running our Stress Less Week, packed full with activities including yoga, mindfulness and crafts, or by campaigning to improve student wellbeing services.

GIVING BACK

We help you raise money for charities you care about. In 2020 we raised over

£51,000

for Movember! We’re also working towards a Hedgehog Friendly Campus award, as well as raising funds for local charities.

INCREASING YOUR EMPLOYABILITY

We help develop your skills through our partnerships with academic departments. Our students have organised and delivered an open air cinema, Christmas Market and much more.

25

BROOKES UNION

Est. 1921

SAFETY FIRST

We run the Safe Taxi scheme to help students get home safely if they don’t have the cash to do so. We also run personal safety campaigns and last year handed out

over 1,000 personal safety alarms.

BELONG

We have

over 100 student-led societies.

Societies are a great way to make new friends and try new things.

Life outside of lectures

Your life at Oxford Brookes is so much more than studying. You'll make friends and memories to last a lifetime.

Find out more online:
www.brookes.ac.uk/sport

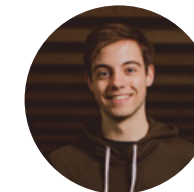

Sport at Oxford Brookes

From American football to Zumba, Brookes Sport offers plenty of opportunities to get active, compete, or simply socialise. Facilities include excellent gyms, a premier climbing wall, swimming pool, boathouse, courts, pitches, sports bar and more.

On the competitive side, #TEAMBrookes has a huge range of sports clubs you can join. Wednesdays are the sporting highlight of the week – teams travel across the country and host fixtures across Oxford as part of BUCS (British Universities and Colleges Sport) competition.

Japanese Society social

“There are lots of clubs and societies for all different interests, so making friends is no issue! If you can't find something that suits you, there is nothing to stop you making your own society.”

ASHLEY LARKIN,
HISTORY AND CRIMINOLOGY

Societies at Oxford Brookes

If you have a passion you would like to share with others, or you want to meet like-minded students, joining a society is a great way to do this.

Brookes Union currently supports over 100 societies. They reflect our global community, sharing interests from baking to botanicals, cultures and countries, and law to LGBTQ+. With film screenings, debates, dinners, speakers, club nights, balls and trips away, there's always something exciting going on.

Our campuses

You'll have access to quality facilities and excellent learning spaces specifically designed for your area of study. Our courses are taught across four campuses, each with their own unique feel and community.

Harcourt Hill Campus

HARCOURT HILL CAMPUS

- 3 miles from Oxford city centre which can be reached by bike in under 20 minutes
- all education courses, English Language and Linguistics, Philosophy and Communication, Media and Culture are all taught here
- 110-acre campus with beautiful green spaces
- gym, swimming pool and sports centre
- library and subject-specific librarians
- on-site accommodation
- 24-hour computer room
- on-site refectory
- chapel.

www.brookes.ac.uk

Headington Campus

HEADINGTON CAMPUS

- our largest campus
- 1 mile east of Oxford city centre
- set over three main sites (Gypsy Lane, Headington Hill and Marston Road)
- on-site gym and climbing wall
- a wide range of accommodation options
- vibrant mix of learning spaces and specialist facilities
- 24/7 library and subject-specific librarians
- multiple food outlets and Brookes Union
- on-site shop, doctor's surgery and dental facilities.

WHEATLEY CAMPUS

- A 13 minute bus ride to Headington campus
- Computing, Cyber Security, Computer Science and Robotics, Mathematics, Automotive, Mechanical and Motorsport Engineering courses are all taught here
- specialist engineering workshops, labs, and computing and digital media studios
- library and subject-specific librarians.

Wheatley Campus

Swindon Campus

SWINDON CAMPUS

- Adult Nursing (also available at Headington Campus) is taught here
- close to the Great Western Hospital and other placement partners
- on-site subject library, cafe and teaching rooms along with specialist clinical simulation suites.

The BROOKESbus service connects all our Oxford campuses and offers free Wi-Fi while you travel!

What happens where

Our library

Our libraries have work spaces to suit your working style as well as 24/7 access to ebooks and print books, online journals and databases. Perfect for when you're looking for inspiration, need a quiet space or want to get on with group work.

Our subject-specific librarians are here to make your studying easier and more fulfilling by offering one-to-one help with:

- finding relevant information for assignments and dissertations
- using online resources
- referencing your sources.

“The facilities are very good, the library at Headington campus is amazing! It covers six floors and has got everything you need. The librarians are very helpful if you need anything and it is open 24/7 in semester time. You can also access all the electronic journals and books from home too...”

**STEPHANIE HUTCHISON,
MENTAL HEALTH NURSING**

Our LibrarySearch discovery platform provides a Google style experience for locating all our resources both printed and online, making finding information much faster and easier.

24/7

during semester in Harcourt, Headington and Wheatley

400,000

paper-based journals and books

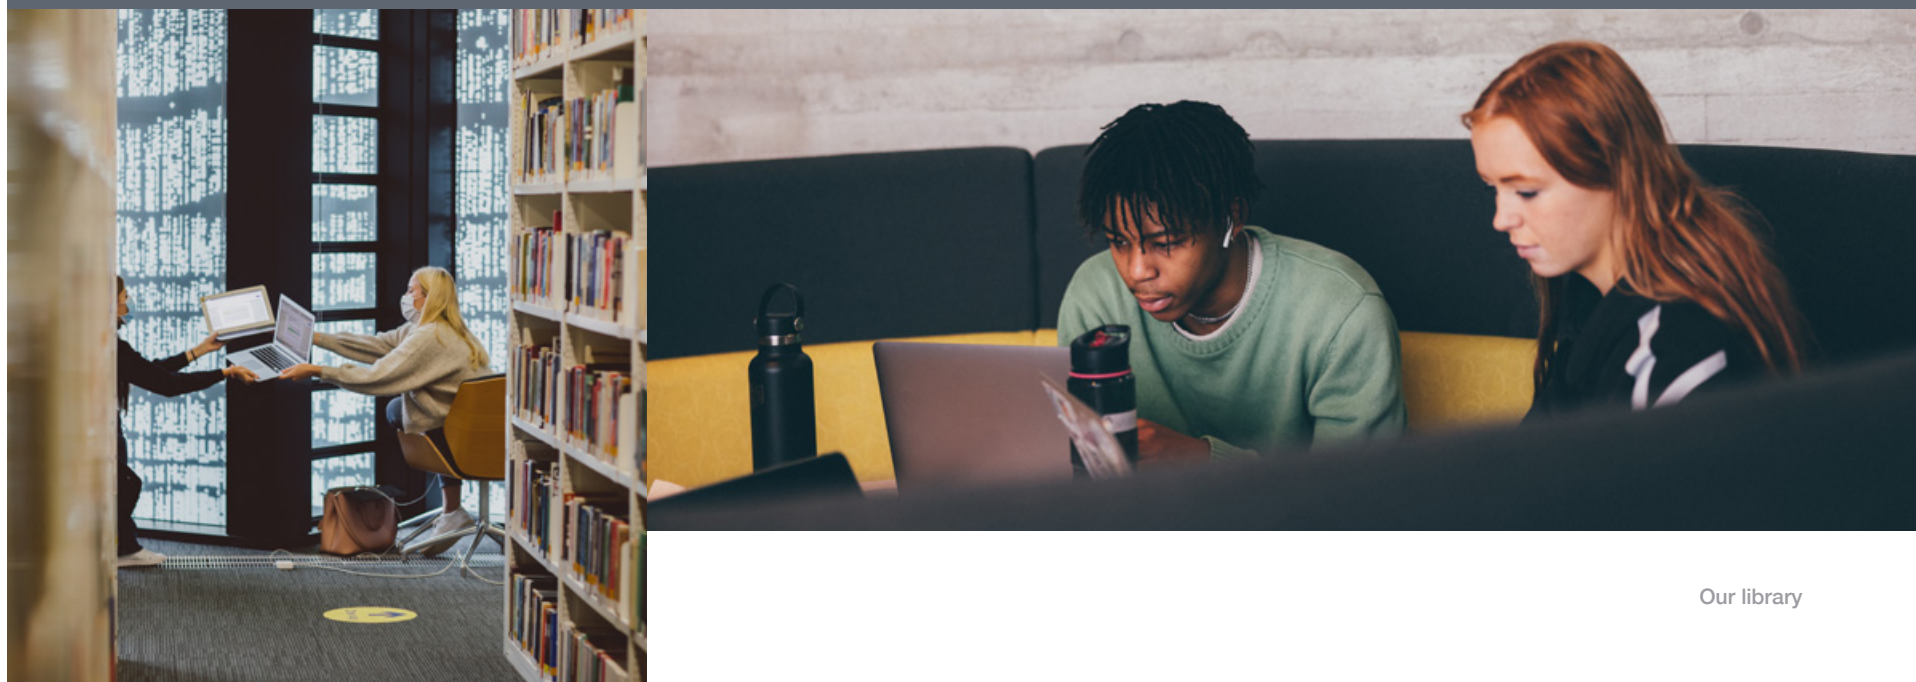

1,000s

of online resources

1,150

study spaces over four libraries

Support and wellbeing

Starting university is an exciting time and also a time of great change. You will have access to comprehensive support and wellbeing services at Oxford Brookes.

- Dedicated **student support co-ordinators** are based within each subject area. They are a great first person to go to, and can give you support on personal issues as well as offering advice and guidance on academic issues.
- The **Oxford Brookes Student Counselling Service** offers a wide range of support for your emotional wellbeing while you are a student at Oxford Brookes. The service is free and confidential.
- The **Multifaith Chaplaincy** provides pastoral support and spiritual care to all students.
- **Brookes Union Advice Service** offers independent advice and can help with issues such as finance concerns or knowing your rights as a tenant.

Helping you go further

Investing time in your own personal development is an important part of your student experience. We've built up an enterprising and inclusive community of mentors who can guide you through your time at university and help you prepare for the world beyond. You can choose from peer-to-peer schemes, where you'll be mentored by an existing and more experienced student, or you can seek out a professional mentor and use this as an opportunity to be mentored by an amazing role model already in the world of work.

www.brookes.ac.uk/mentoring

98%
of students who used the Student Counselling Service would recommend it to another student.

Inclusive Support Services

Our Inclusive Support Service offers advice and guidance whenever you need it, throughout your time at university. Specialist support includes:

- access to assistive technology
- Disabled Students' Allowance (DSA) funded, specialist mentoring and one-to-one study skills support
- liaising with academic staff about reasonable adjustments
- special exam arrangements
- support when applying for accommodation.

International students

Pre-arrival, we're on hand to help with immigration, visas and finance issues. Once you're here, we run socials, buddy schemes and offer free English language support to help you settle in as quickly as possible.

www.brookes.ac.uk/students/isat

“One of the reasons why I decided to study at Brookes was the excellent quality of the disability service. They supported me from my application to university being successful, right up until the date of my graduation. I cannot fault them.”

**LAURA CROFTS,
EDUCATION STUDIES GRADUATE**

Making your money go further

Money shouldn't be a barrier to your success. Here are some tips to help make your money go a bit further while at university.

Look at all possible sources of income

We offer grants, bursaries and scholarships at Oxford Brookes. See pages 154 - 156 to find out more. The government also has additional financial support for some students – so make sure you know what is available to you.

Shop smart

From looking out for special offers, to buying in bulk, there are lots of useful hints and tips at www.moneysavingexpert.com.

Look out for free events

Oxford is a vibrant student city, so there are always lots of free things going on. From live music and film screenings to exhibitions and talks, there's always something for everyone. Visit www.dailyinfo.co.uk for listings and ideas.

Get part-time work

Many employers in Oxford offer flexible working hours to fit around your studies. Our jobs fair in Semester 1 is the ideal opportunity for you to find work that fits around your schedule.

**Subject to an £8 application fee. For more details please visit www.brookes.ac.uk/travel/brookeskey*

www.brookes.ac.uk

“As an undergraduate student living in halls I got a free BROOKESkey bus pass*. I could hop on any of the university buses that connect the different campuses and also the city centre and train station. And I could get those bus fares for free.”

PANNI UJVARI, SOCIOLOGY

Student discounts

Sign up for a Totum student card with your given university email address. These cards offer discounts at many different retailers and services.

Get budgeting

Budgeting apps are a great way to help you stay on top of your spending. There are lots of free ones to choose from, with Money Dashboard and Bean being popular.

Get fit and save money

Cycling and walking will save you money and keep you fit. Oxford is a recognised 'cycling city' and has plenty of cycling routes. We also have on-campus Bike Doctor maintenance sessions with free labour (you only pay for parts).

Making your money go further

Accommodation

Discovering a new city and making it your home can be one of the most exciting parts of university life. We offer a range of accommodation to suit different needs and budgets. You'll soon settle in, meet new people and enjoy living in your home away from home.

- ✓ **To make budgeting easier, utility bills are included in the price – meaning no nasty surprises.**
- ✓ **Hall staff are on site 24/7 so you'll feel safe and supported.**
- ✓ **All halls are on a BROOKESbus route – connecting our campuses to the city centre and other popular student areas. Full time, undergraduate students can enjoy free bus travel on our U1 and U5 buses with the purchase of BrookesKEY (£8).**
- ✓ **We guarantee accommodation in one of your five hall choices if you make us your firm choice and apply by the deadline.**
- ✓ **We also guarantee accommodation if you are an Insurance applicant and you apply by the deadline, however, this may not be in one of your preferred choices.**

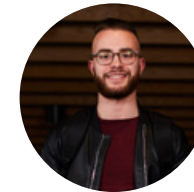

If you have a medical condition or disability, let us know in your application and we'll help you choose the best hall for you. Find out more on our website.

You'll have opportunities to chat to your flatmates and ask questions before you arrive on the Brookes Union Facebook group for your hall.

The Residences Life Team

The Residences Life Team is the hub of student experience for students living in Brookes Residences. We keep you informed of important and useful information, and we also run a range of activities and events throughout the year so you'll have plenty of opportunities to meet new people and make friends. The team is on hand to support all aspects of student living, including welfare, health and well-being, conduct, safety and life skills.

“Living in halls is the best opportunity to make new friends, be more independent and realise that cooking is not that difficult. Additionally, wardens are experienced members of the accommodation team and are always there to help and support you!”

GUIDO SELVAGGIO,
INTERNATIONAL
HOSPITALITY AND TOURISM
MANAGEMENT

For the latest information, details on how to apply and to take a virtual tour, take a look at our website.

University-managed halls

| Hall | Distance to campus | Rooms | Contract length |

Our courses

Our courses will help you to take the first steps in your future career because we design them to ensure that what you learn in lectures is relevant to the workplace. We have a wide range of courses available, some of which you may not have even considered yet.

As well as Bachelor's degrees we offer:

Foundation courses

One or two year preparatory courses that enable school-leavers to reach the entry requirements needed for degree level study in a particular subject area. They are designed to give you specific subject knowledge and provide you with skills you will need for your chosen course.

Final Year Entry Degrees

If you have academic credit at higher education level and would like to top up to a Bachelor degree, our Final Year Entry Degrees take just one year to complete and are suitable for holders of an SQA Advanced Diploma, Pearsons BTEC HND, NCC Diploma or equivalent.

Please check individual subject area entries to find out if we have a Final Year Entry degree in your chosen field.

All courses are arranged in alphabetical order, within the subject areas, with a course index at the back of the prospectus listing joint honours options. You can also see our website for the latest information.

Accounting, Finance and Economics

The accounting, finance and economics courses at Oxford Brookes Business School combine academic study and real-world experience. Dynamic and engaging classes will help you develop essential skills for your career. You'll be able to critically evaluate evidence and make well-informed decisions. These courses will provide the foundations for you to become a successful leader in your career.

TOP 3 REASONS TO STUDY WITH US

1. Our **outstanding links with leading employers** open up exciting opportunities to develop valuable experience with an optional year-long, paid work placement.
2. Our course content stays up-to-date through our **close relationships with professional bodies**. These partnerships include the Association of Chartered Certified Accountants (ACCA).
3. The economics that you learn will **enable you to apply concepts to a wide range of practical business problems**.

Students inside Clerici Building

✔ TYPICAL OFFERS UCAS tariff points 104

For further guidance on converting your grades to UCAS points, see page 157.

What you will study

This course explores a variety of complementary areas. These include microeconomics, macroeconomics and the fundamentals of financial and management accounting. You'll be able to apply your new knowledge and analytical skills to real-world situations.

After you graduate

You will have acquired the skills and knowledge needed for a career in economic policy, accountancy or to continue to study at master's level. Recent graduates from our accounting programmes are now working in tax, internal and external audit and analyst roles for businesses such as Deloitte, BDO, PwC, the NHS and Sainsbury's.

The Clerici Building, which is home to the Business School, provides our students with innovative learning spaces and study areas.

What you will study

This course explores many areas such as business-relevant economics, finance and accounting. As well as more traditional areas such as tax and audit, we offer the opportunity to explore topics like sustainability, global finance and law. You will develop your IT skills with applications such as accounting software.

This course can allow exemptions from examinations with professional bodies ACCA, ICAEW and CIMA.

After you graduate

Our graduates have a great track record of gaining employment at the companies at which they completed their placements with. Others go on to complete training schemes, follow careers in accounting and finance, or go on to further study. Recent graduates from our accounting programmes are now working in tax, internal and external audit and analyst roles for businesses such as Deloitte, BDO, PwC, the NHS and Sainsbury's.

✔ TYPICAL OFFERS UCAS tariff points 104

For further guidance on converting your grades to UCAS points, see page 157.

What you will study

This course combines the core areas of business, management, accounting and finance. You can explore interesting topics like ethics, international business and finance. By offering you the flexibility to tailor the balance between these disciplines, you can choose topics that suit your career goals and graduate with the skills needed for your chosen profession.

We offer an optional work placement year, where you can improve your skill set and network with people in the industry. Placements allow you to gain real-world experience which you can then apply to your final year of study.

After you graduate

This course prepares you for a career in business, accounting or finance. You'll be able to apply your knowledge of the three disciplines to whichever route you choose.

Graduates from related courses work at global organisations, including Apple, IBM and Aston Martin. Some graduates have pursued careers in banking at, for instance, Lloyds Banking Group and Metro Bank.

“I was able to develop invaluable soft skills such as critical thinking, analytical skills and strong problem solving, which have equipped me for the professional world.”

What you will study

This course will give you a global perspective on the ever-changing world of economics, finance and international business. This degree will give you a grounding in economics, international business strategy, quantitative methods and develop the employability skills needed by economics graduates in the workplace. There will be modules with an 'international' and contemporary theme throughout your programme.

After you graduate

Our recent graduates have gone on to work for global companies like KPMG, Thomson Reuters, BNP Paribas, PwC, and Grant Thornton UK LLP. They have also pursued careers in the Government Economic Service. In addition, our graduates have gone on to postgraduate study at every major university in the UK.

“My course accommodates any student interested in Economics, Finance and Business. I am starting my second year now, and I love it all.”

What you will study

The experience of recent years has shown very sharply how economic and political ideas and issues are closely related and how important the international context is to this. This course allows you to explore these crucial issues. This course will also equip you with critical and strategic-thinking skills, as well as improve your ability to present evidence-based arguments.

After you graduate

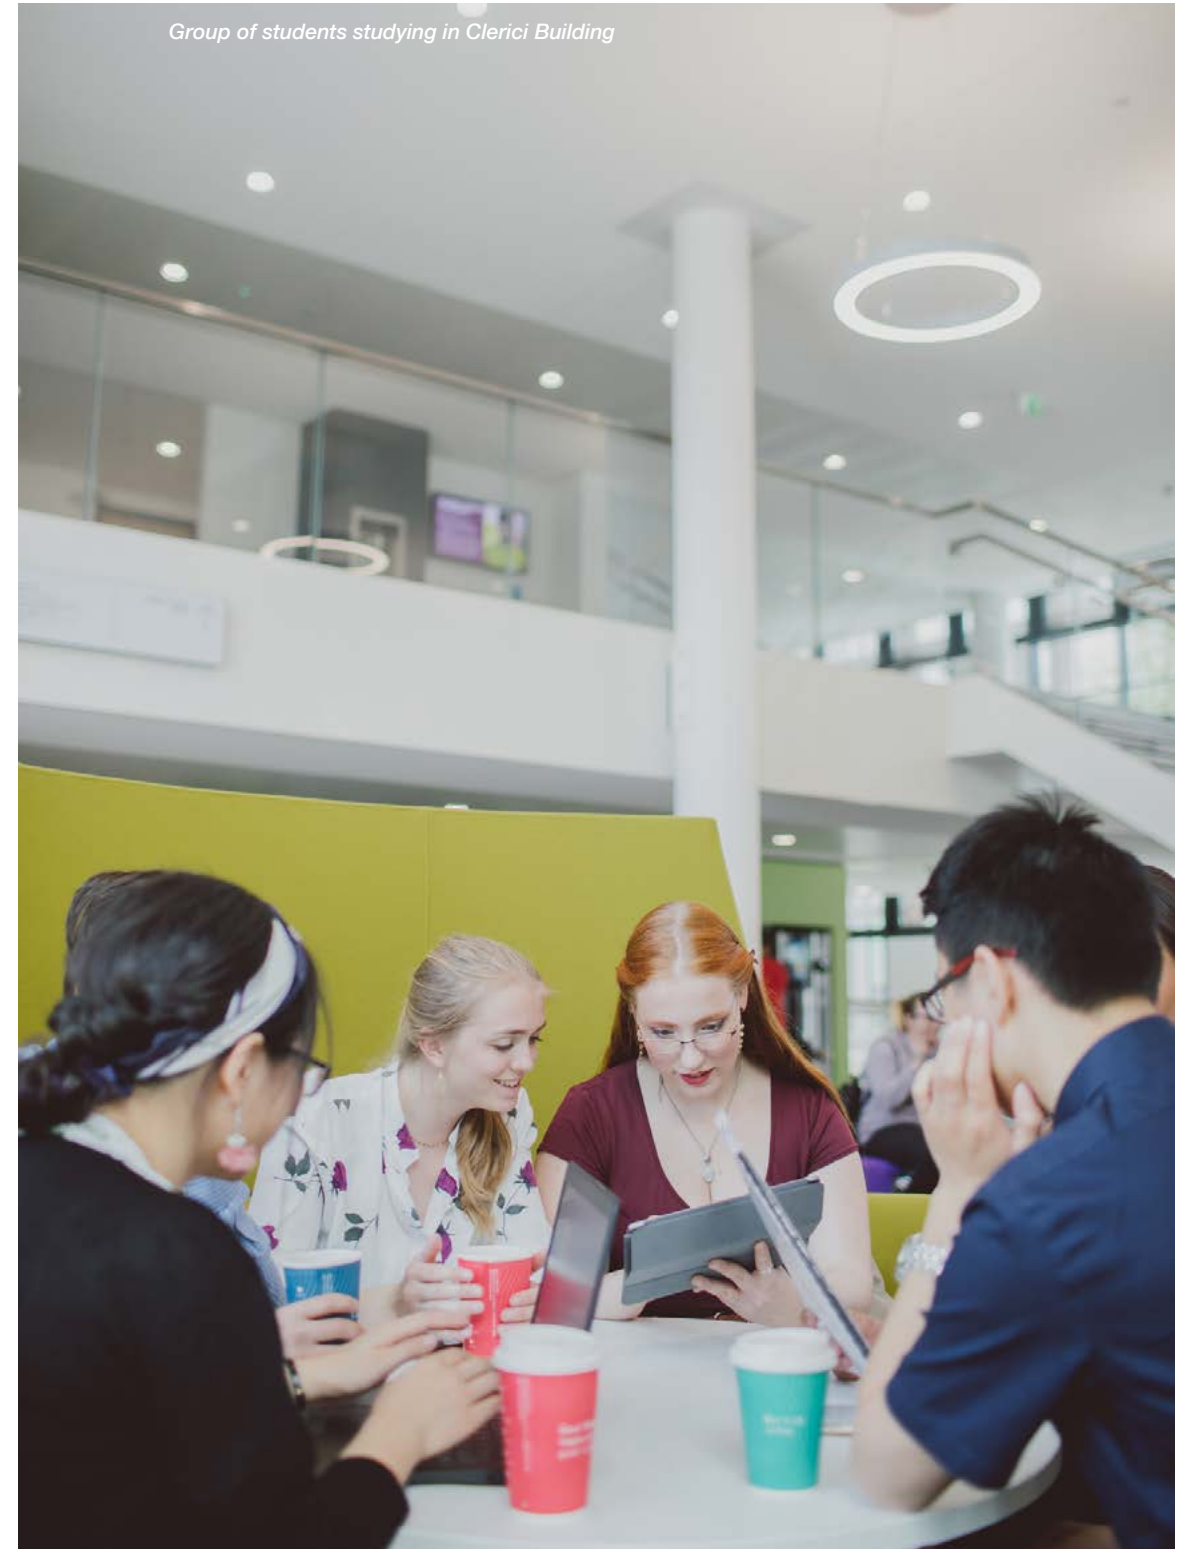

You can pursue many career paths once you graduate from this course. These range from government and diplomatic service to publishing and journalism. We've also had students go on to work for trade unions and NGOs.

“I loved how dynamic and relevant the course was, drawing across the different disciplines and perspectives. I was able to pick and choose modules to suit my interests.”

CHIARA THOMAS-STEPHENSON, GRADUATE

What you will study

Learn to draw, model and design buildings and spaces for the ever-changing world we live in. Explore your passions and discover your identity as an architectural designer. Make an impact on the local community by working on live projects with real clients on this RIBA, ARB and Board of Architects Malaysia accredited course. You will be taught by industry-leading architects who support your creativity and your potential. You'll have access to state-of-the-art facilities which are open 24/7 to allow for flexible studying.

After you graduate

This course provides the first part of your qualification as an architect, but also an abundance of transferable skills that can lead to a broad range of careers. Mentorship schemes in the school will help you discover where you want to take your career, and our very active links with alumni and practitioners will help you access career advice. You will graduate with the skills and portfolio of work key to gaining employment.

Recent graduate employers include:

- OMA
- Foster + Partners
- Kengo Kuma Architects.

UCAS tariff points 128

For further guidance on converting your grades to UCAS points, see page 157.

What you will study

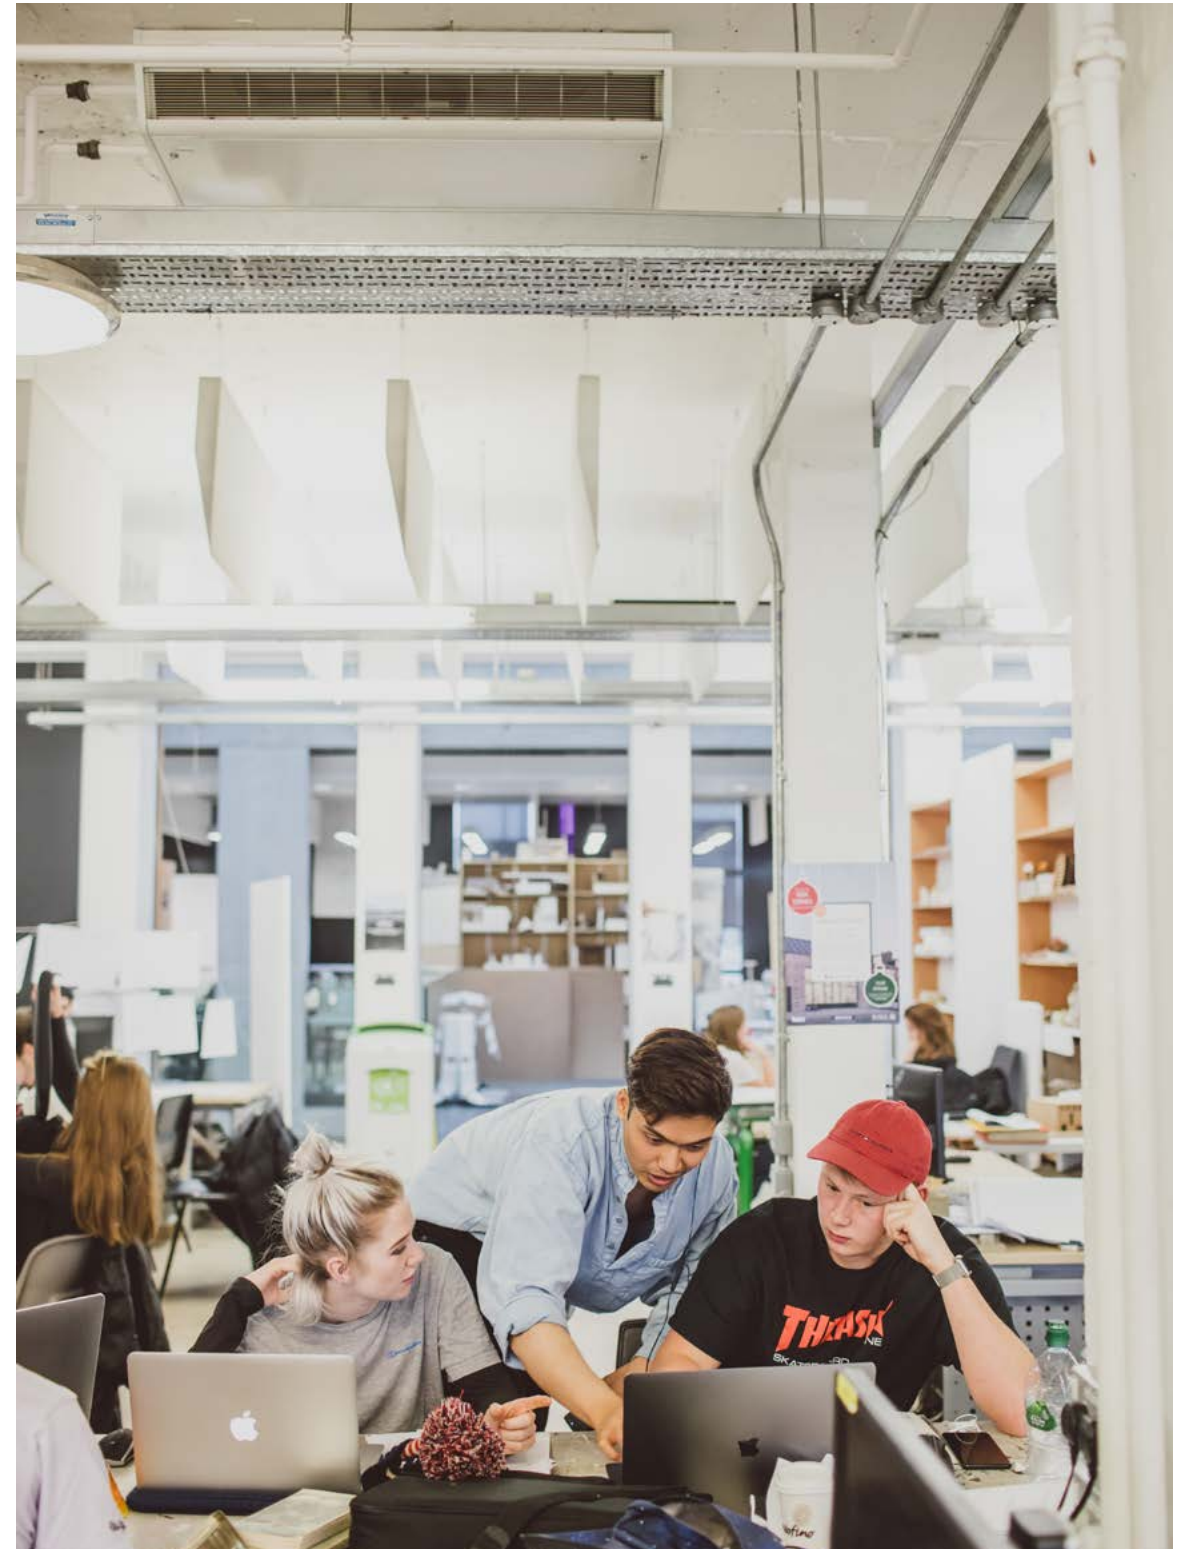

This course focuses on the sustainable design of interior spaces. Interior architects redevelop spaces so that they are functioning at their greatest efficiency. You will investigate the relationship between people and the spaces they inhabit. Atmosphere, spatial qualities and material exploration are key themes that you will study. You will learn to draw, model and write about contemporary design.

After you graduate

This course provides a direct route into professional practice. You will graduate as a professional designer who is able to respond to a wide range of human and cultural needs. You will be confident in delivering innovative and sustainable design solutions. Recent graduates have worked in architecture practices, design practices, urban design, film industry, product design, planning and journalism.

What you will study

This course will prepare you to study at degree level. You will gain knowledge and skills in areas fundamental to the design and development of cities. You will study areas including planning, urban design, environmental sustainability and construction management. To develop your practical skills, this course combines theory with field trips and live projects. Throughout the course, you will discover new subject areas which will help you make informed choices about further study.

After you graduate

Successful completion of this course will allow you to progress onto our Real Estate, Planning or Construction degree courses. These offer excellent career opportunities and professional qualifications with the Chartered Institute of Building (CIOB), Royal Institution of Chartered Surveyors (RICS) or Royal Town Planning Institute (RTPI).

What you will study

This course prepares you for a range of careers including property development, planning and surveying. You will learn about the policies and processes that bring forward developments that stand the test of time and enhance our built environment. This course covers sustainable development, planning, construction, valuation, urban design, economics and law, as well as the political, economic and social factors that shape the industry. You will gain valuable knowledge through a European residential trip and meeting guest speakers. You will also have the opportunity to gain hands-on experience of the industry by undertaking a work placement year. Practical learning, site visits and live projects underpin our teaching.

After you graduate

Throughout the course, you will meet employers at career fairs and events. You'll also have the opportunity to develop your career with our mentoring scheme. The optional work placement year offers you the opportunity to build industry experience and a professional network before graduating. Graduates will be prepared for roles such as property developer, chartered surveyor and house builder.

Companies who have attended previous careers events include Carter Jonas, Deloitte and Knight Frank.

www.brookes.ac.uk/property

What you will study

This course will prepare you for a range of careers within the dynamic real estate sector. Written and taught by industry experts, this course provides you with excellent knowledge of urban real estate. The course covers the key areas that underpin the property market, from development to investment, management, planning, construction and valuation. You'll also study the latest technology developments that are leading the industry. You will learn to apply your knowledge to real-world problems. In your first and final years you will take a residential field trip in the UK or Europe to study the chosen city.

After you graduate

Leading property and development consultancies, investment companies and house builders recruit our graduates. Many of these companies attend our annual careers fair. Our mentoring scheme, run with our graduate society, provides excellent networking opportunities, study support and careers advice. We also provide help with internship opportunities and graduate roles.

Ranked **4th** in the *Complete University Guide* Land and Property Management ranking 2021.

www.brookes.ac.uk/rem

What you will study

This course introduces you to the principles of urban design, planning and development. You'll gain knowledge of the factors that impact the future of cities and study the practices and processes that allow you to create great places. You will study place-making, regeneration, heritage, infrastructure, economics, sustainability and globalisation. This course offers a unique hands-on teaching and learning experience. You will connect theory and practice through a structure of urban labs; interconnected, project-based and industry-led modules, as well as study trips in the UK and abroad.

After you graduate

You will have developed knowledge and skills sought after by leading companies. Throughout the course you will have the opportunity to work on projects for real clients. We will introduce you to employers and equip you with a portfolio, so that you are ready for the world of work.

Graduates have found jobs with companies such as Barton Willmore, Savills, Arup and AECOM.

✔ TYPICAL OFFERS

UCAS tariff points 64

Students can earn up to 112 UCAS points on this course.

For further guidance on converting your grades to UCAS points, see page 157.

What you will study

This one-year foundation course is an entry route to all undergraduate art and design courses. Throughout the course you'll be introduced to a wide range of creative practices and skills. You will develop your independent creative thinking and learn to apply this across a range of disciplines. You will be taught by tutors and visiting lecturers who are practising artists and designers.

After you graduate

You'll be supported to develop a rich portfolio of work and gain key skills, leaving you prepared to make an informed choice about further study or a career in art and design. You will experience a wide range of subjects that will prepare you for courses in fashion, textiles, graphic design, illustration, 3D design, fine art, architecture, digital media and other creative disciplines. Students progress onto degree courses here at Oxford Brookes and to other prestigious courses in the UK and abroad.

This course is awarded by University of the Arts London (UAL) Awarding Body and leads to a UAL Level 3 Diploma in Art and Design.

✔ TYPICAL OFFERS

UCAS tariff points 112

For further guidance on converting your grades to UCAS points, see page 157.

What you will study

This course provides you with skills in the creation of digital assets, television, video and audio production, visual effects, computer animation, interactive and virtual content. You will learn using specialist facilities and gain experience working with real clients on real briefs. You are able to tailor the course to suit your ambitions by choosing to specialise in either technical operations or production. You also have the opportunity to graduate with AVID Professional certification in Media Composer Video Editing.

After you graduate

The course has strong links with the digital media industry and will provide opportunities within modules to draw on industry expertise. Recent graduates have found jobs with major television companies and post-production facilities. Others have progressed onto further study or research and development for companies such as Google.

Graduates have gone on to work for companies including BBC, HBO, The Discovery Channel and Framestore.

www.brookes.ac.uk/dmp

These courses provide students with the higher level skills desired by employers. Our Graduate Outcomes survey shows that **92%** of our Fine Art graduates are 'highly-skilled'.

✔ TYPICAL OFFERS

UCAS tariff points 112

For further guidance on converting your grades to UCAS points, see page 157.

What you will study

Whether you're interested in becoming a director, screenwriter, journalist, critic, scholar, or simply love film, this course will provide you with the opportunity to explore your interests and build professional expertise. We deliver a course that balances the production, history and study of film theory to a professional standard. So you'll gain fundamental knowledge of both the history and practical sides of film, filmmaking and the industry. During the course you'll have the opportunity to tailor your modules to suit your ambitions. In your final year you'll be able to choose between a dissertation or film project. You'll also have the option of carrying out a work placement or an industry mentored live project.

After you graduate

Our varied curriculum will make you stand out from the crowd when applying for a variety of careers in the film and media industry. Our established links with the film industry enable students to meet professionals at regular film events. Career options include film, TV and media journalism, research, production management for film and TV and creative writing for the screen.

Industry connections:

Guests have included Ken Loach, Terry Ackland-Snow, Nick O'Dwyer, Jane Crowther and Quicksilver Media.

COURSE START DATE

September

TYPICAL OFFERS

UCAS tariff points 112

For further guidance on converting your grades to UCAS points, see page 157.

What you will study

Explore and develop your experience and knowledge of contemporary art. You'll be encouraged to experiment with a diverse range of media and supported to find new ways of working, building your own independent artistic practice. You will have 24/7 access to your studio space and be supported to use our extensive technical facilities and workshops. There are regular tutorials with staff, and opportunities to exhibit your work both in the department and off campus. You'll explore key concepts in critical theory and how they are engaged with by artists, developing the ability to analyse and discuss contemporary art and culture.

After you graduate

You will develop and strengthen professional skills to prepare you for a career as an artist or in the creative industries. Professional practice runs throughout the course. You'll have the opportunity to work on independent public projects and to undertake a work placement. Many of our graduates work as self-employed artists, others go on to careers in teaching, curating, gallery management, and other creative roles.

We have strong relationships with local art organisations and galleries including Modern Art Oxford and OVADA (Oxford Visual Arts Development Agency).

TYPICAL OFFERS

UCAS tariff points 112

For further guidance on converting your grades to UCAS points, see page 157.

What you will study

This course takes an applied approach to the dynamic field of graphic design. You will use professional studios and workshop facilities to experiment and explore new ways to push the boundaries of graphic design. You'll gain core design and research skills and develop your own design identity through hands-on, practice-based projects. You'll have the opportunity to explore a range of approaches and techniques including typography, interaction, user experience, social design, photography, animation, digital, book and editorial design. You'll participate in live projects working with the broader design industry in an environment that will prepare you for work in a professional studio.

After you graduate

Throughout the course you'll discover your own approach to visual problem solving and graduate with the technical, critical, and conceptual skills that are highly valued by the creative industries. This course can lead to careers in areas ranging from branding consultancies to digital design, publishing and advertising.

Recent student project collaborations have included Royal Society of Arts (RSA), D&AD, ISTD, Creative Conscience and Extinction Rebellion.

TYPICAL OFFERS

UCAS tariff points 104

For further guidance on converting your grades to UCAS points, see page 157.

What you will study

This flexible course covers all aspects of music, including music history, film music, performance, composition and songwriting, theory and analysis, and music technology. You will develop expertise in making music, conceptualising music and working in music. You will have the opportunity to shape your course to reflect your interests by choosing to study a range of modules, or by specialising in one area. Through live projects, a work experience placement and an international field trip, you will have the opportunity to develop transferable skills and gain industry experience.

After you graduate

This course will prepare you for a range of careers in music, including composition, performance, music production, education and teaching, arts administration and management. It will also give you access to postgraduate study and a wide variety of graduate careers beyond the arts.

An international field trip to a European city and a work placement in your second year complements this broad, flexible degree.

What you will study

This course combines hands-on practice with academic study. You will explore the role of photography in the 21st century while developing an independent visual language. Our teaching focuses on photography as a profession and you will learn from leading industry creatives. This course will support you in developing a professional practice centred around your passions. You will develop transferable skills within still and moving image creation, publishing, curation and social media implementation.

After you graduate

You will graduate with valuable knowledge of the creative industries and strong technical competencies. You will have developed your photographic practice and identity as a visual communicator, ready for work in the industry. The course has strong links with local, national and global creative industries.

Recent visiting lecturers include art director Fiona Hayes and photographers Tom Oldham, Craig Easton, Nick Turpin and Danny North.

Biosciences

62

These degrees are a great foundation for a wide range of careers. Research-led teaching is geared towards developing your professional skills alongside the theory. We do this through lab-based experiments, practical experience in areas such as bioimaging, case studies, research projects and fieldwork. Our links with industry and the NHS provide high-quality work placement opportunities.

TOP 3 REASONS TO STUDY WITH US

- 1. Top quality labs and teaching spaces** including a bioimaging unit which houses advanced light and electron microscopes.
- 2. For some clinical topics** such as biochemistry, haematology and immunology, you'll be **taught by clinical scientists** at Oxford University Hospitals NHS Foundation Trust.
- 3. Lecturers are experts in their field** and committed to the student experience.

Student practicals in one of our labs

“There is an excellent working relationship with local hospitals.”

What you will study

How do we best conserve rare and endangered animal species? What adaptations help animals cope with life in changing environments? This course covers topics that are scientifically rigorous and relevant in today's world. You will learn essential skills, such as animal identification and survey techniques, the aim being to put these skills into practice with field and laboratory work.

This course is accredited by the Chartered Institute of Ecology and Environmental Management (CIEEM) which means you will be prepared for a career in conservation, with a professionally recognised accredited degree.

After you graduate

Our graduates have gone on to work for a range of leading biological conservation agencies, including: the Royal Society for the Protection of Birds (RSPB) and the Environment Agency, as well as careers in environmental consultancies, management, journalism and media.

You have the opportunity to go on residential field courses in areas with rich natural history, habitat and landscape diversity.

www.brookes.ac.uk/abio

What you will study

Our degree is designed for students interested in the breadth of biological sciences. You'll have the opportunity to explore different topics including cell biology, genetics and animal behaviour before selecting your advanced modules. Practical sessions support the theory, so you can develop your confidence in laboratory and research skills, both important for future career opportunities.

After you graduate

The skills you develop will prepare you to work in a wide range of organisations. Our graduates work in local authorities, research laboratories within universities, research institutes and biotechnology companies. While other graduates have gone onto further study including medical schools.

www.brookes.ac.uk/biosci

What you will study

Genetics and genomics is an exciting, evolving discipline that impacts on all areas of the biosciences. You can choose modules within the course that:

- focus on gene sequencing and analysis
- focus on molecular biology
- use the latest microscopy techniques to explore living cells in our bioimaging labs.

You will develop the skills bioscientists need for this new era of genomics and big data in biology. The skills you will gain are relevant to fields including healthcare, endangered species and cancer research.

After you graduate

Our graduates have developed careers in a variety of roles in biological organisations, including agrochemical and biotech industries. Other recent graduates have gone on to work in management, journalism and the media. Some continue onto postgraduate study, including our Conservation Ecology and Medical Genetics and Genomics degrees.

“This degree offers you the opportunity to explore advances in the exciting and evolving field of biosciences.”

DR CASPER BREUKER, SENIOR LECTURER

www.brookes.ac.uk/genetics-genomics www.brookes.ac.uk/human-biosciences

What you will study

This course focuses on the biology of humans at a systematic and whole human organism level. You can choose between:

- A broad approach, based on the principles and methods of different aspects of biology.
- or
- A focused approach, with a view to becoming a specialist. For example, you can specialise in cell biology, neuroscience, nutrition or genomics.

You will benefit from the department's research expertise in areas such as cardiopulmonary, renal and reproductive physiologies.

After you graduate

A human biosciences graduate is well-qualified for different careers including:

- medical writing
- exercise physiologist
- immunology research scientist
- medical school
- research posts in companies or academia.

“This degree aims to develop your essential skills and knowledge of biosciences while allowing you to specialise in human sciences.”

UCAS tariff points 104 including one A-level or a comparable Level 3 qualification in a science subject (eg Biology, Chemistry, Mathematics, Physics, Psychology)

For further guidance on converting your grades to UCAS points, see page 157.

What you will study

This is an interdisciplinary degree that explores all aspects of the biology of animals, including evolution, genetics, development, morphology, neurobiology and behaviour.

Through field work and computational biology, you will explore how animals interact with the environment. Using this knowledge you will evaluate conservation programmes. We teach modern lab training and other relevant skills that are important to employers within the biosciences industry.

After you graduate

The skills and knowledge gained on this course are relevant to many careers, in areas such as conservation of endangered species and habitats, animal education and welfare, controlling pests and diseases, drug development, journalism, teaching and research.

There are also career paths in agricultural and biotechnology industries, the civil service, forensic sciences and teaching.

UCAS tariff points 104 including one A-level or a comparable Level 3 qualification in a science subject (eg Biology, Chemistry, Mathematics, Physics, Psychology)

For further guidance on converting your grades to UCAS points, see page 157.

What you will study

Interested in a career as a professional scientist? This course enables you to study a specialist area of biology in-depth. Areas include environmental biology, conservation, evolution, developmental biology, cell and molecular biology, ecology, genetics, botany and zoology.

You will develop the ability to adapt and apply methodology to solve unfamiliar problems, along with a critical awareness of advances at the forefront of these fields.

This is an integrated master's and after completing this 4-year-course you will have a postgraduate qualification.

After you graduate

Career opportunities are available in sectors which seek bioscientists for research and development. These sectors include biopharmaceuticals, bioscience, biotechnology, healthcare industries, hospitals and public health laboratories.

You have the opportunity to add an industrial placement year to get experience of applying science in a practical environment.

What you will study

The Medical Science degree delivers the opportunity to explore the science that underpins many areas of medicine. You will integrate the study of cells and molecules with an exploration of the physiology of body systems. As well as Oxford Brookes lecturers and technical staff, you will also learn from experts working within the Oxford University NHS Foundation Trust.

Our clinical partnerships can introduce you to some of the scientific ideas in practice in hospitals today.

After you graduate

The combination of molecular and physiological subjects opens a wide choice of careers. These include those with a strong medical focus, either through research or patient-focused health care in a hospital. Graduates will have the knowledge and skills to support applications for postgraduate courses in Medicine, Dentistry and the new Physician's Associate master's degree.

www.brookes.ac.uk/medsci

“The prospect of working towards something that could prevent disease was exhilarating and learning about all of the laboratory procedures, from cloning to crystallisation, was undoubtedly a defining experience as an aspiring scientist.”

FERDOS ABID ALI, BIOMEDICAL SCIENCE GRADUATE

Business and Management

The Business and Management suite of courses at Oxford Brookes Business School prepare you for a career in any sector of business. You'll develop practical business skills, will learn how to apply your academic studies to solve problems and will build the knowledge and confidence to stand out in a competitive industry. You'll be learning from our academics who combine real-life business experiences and research in their world-class teaching.

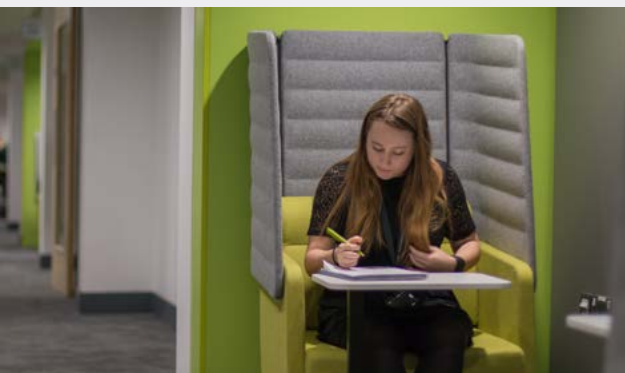

TOP 3 REASONS TO STUDY WITH US

1. You will benefit from our **strong links with a range of exciting and innovative companies**, both locally and nationally, from Purple Frog and Pamoja Education to IBM and BMW.
2. You'll have the **opportunity to spend a year in a paid work placement developing valuable skills**. Recent students have spent a year with Airbus, Dior, Great Ormond Street Hospital, John Lewis, Microsoft, Nestlé and PricewaterhouseCoopers.
3. Our academics have worked as consultants for the **UN, Red Bull Racing and KPMG** to name but a few.

“There are lots of interesting talks about entrepreneurship, marketing, strategy and finance in the city. This has given me a great opportunity to make friends and connect with like-minded people.”

What you will study

Based in the Business School and drawing on expertise from the School of Law, you will develop an analytical and evidence-based understanding of key aspects of both business and law, including strategy, entrepreneurship, marketing, and contract and employment law. The combination of business and law allows you to develop a range of transferable skills. The course offers a wide range of optional modules to allow you to shape the course to reflect your interests and career aspirations.

After you graduate

The nature of an interdisciplinary degree means you will gain sound business knowledge and a deep understanding of key areas of law that will equip you for a wide range of careers. You will also gain widely transferable employability skills and competencies.

What you will study

On this course, you will be introduced to a range of business and management theories alongside an exploration of contemporary business practices in an international context. Alongside your academic learning, you will develop skills and awareness associated with employability, responsible management and enterprise. You are encouraged to spend your third year on a work placement.

After you graduate

You will develop the skills, organisational competencies and business awareness needed for successful careers in a range of settings including multinational businesses, major charities, education, healthcare or government. Many of our students go on to graduate training schemes in international companies such as Aldi, Nielsen, Virgin Mobile, Intel, O2 and Dell.

What you will study

This course explores core areas of business and management, alongside subjects relevant to entrepreneurship; such as creativity, innovation and risk management. You are encouraged to enhance your employability by undertaking an optional work placement. Under close supervision by the teaching team, you may be able to transfer onto a suite of work-based learning modules, which allow you to complete your degree whilst engaging in a business venture.

After you graduate

The course will help you develop your enterprise and entrepreneurial skills, providing the ability to compete in a changing job market. You will gain the skills, knowledge and confidence to work effectively in a range of organisations from larger employers to small and early-stage business ventures.

What you will study

This course is delivered by the Business School and the Faculty of Humanities and Social Sciences. You will benefit from an understanding of the theory and practice of both business management and geography, and will have the opportunity to develop your skills and employ the analytical tools and insights offered by the two disciplines. You'll be able to choose from a range of optional modules across both disciplines, and will also have the option of spending your third year on a work placement.

After you graduate

The nature of an interdisciplinary degree means you will be well prepared for a successful career in a wide range of fields, including general or specialist business functions, environmental management and consultancy, and conservation, as well as in local and central government and the civil service.

Some students choose to continue their academic work by entering postgraduate study either at Oxford Brookes or elsewhere.

You will be uniquely placed in the graduate job market with your combined knowledge of business management and law.

“A great way to develop skills is by joining extra-curricular activities, such as the Oxford Brookes Business Society. Here students have the opportunity to expand their learning and have a first-hand experience of the business world.”

BIANCA CAPPELLETTI, BUSINESS AND MANAGEMENT STUDENT

What you will study

This course combines expert teaching from the Business School and the Faculty of Humanities and Social Sciences. You will benefit from an understanding of the theory and practice of both business management and international relations.

The curriculum covers the fundamentals of both subjects. You will be able to focus on specific areas of interest through a range of specialist, research-informed optional modules to reflect your interests and career aspirations. You will also have the option of spending your third year on a work placement.

After you graduate

The nature of an interdisciplinary degree means you will be well prepared for a successful career in a wide range of fields, including general or specialist business functions, parliamentary research, international and non-governmental organisations, charity organisations, publishing, journalism, educational, local and central government, and the civil service. Some students choose to continue their academic work by entering postgraduate study either at Oxford Brookes or elsewhere.

You'll develop a deep understanding of how business and international relations impact each other.

What you will study

This course explores the fundamentals of business and management within an international context and culturally diverse organisations. You will explore the challenges of long-term economic and environmental sustainability and a range of other issues related to international business strategy. As part of this course, you have the opportunity to undertake an exchange for one semester at a partner institution in Europe, the USA, Asia or Australia.

After you graduate

This course and its optional work placement year prepares you for a career in international organisations. Students have enjoyed exciting and challenging positions at Danone, EDF Energy, IBM, Europanel, Samsung, Kantar Worldpanel, Nestlé, PayPal and other global organisations.

“Studying International Business Management has enabled me to see the world of business through diverse lenses, to analyse, critique and advise on contemporary challenges of multinational corporations.”

PHILIP HEUMANN, PRESIDENT OF THE OXFORD BROOKES BUSINESS SOCIETY

Communication, Media, Journalism and Publishing

Oxford is a beautiful city that offers an unparalleled literary history. It is the home of many global publishing brands, and our industry network extends to many leading media organizations. Our degrees provide you with the latest knowledge and skills for a successful career in journalism and publishing. You'll be learning from our expert staff who have worked in the media industries and continue their connections through research and consultancy.

TOP 3 REASONS TO STUDY WITH US

1. You'll be **taught by tutors who are active researchers**, so what you learn is shaped by the latest thinking.
2. **Improve your employability** by learning from our lecturers, many of whom are also industry practitioners.
3. Our courses **provide the opportunity to develop excellent employment skills** from analytical and problem-solving skills to great team working and communication skills.

'Brookes has given us some fabulous employees. From an employer's point of view, a Brookes graduate is as good as someone with a year's work experience.'

What you will study

Explore the forces that shape and drive today's media, creative and cultural industries. This course is structured around the three key themes of communication, media and culture. You can focus on one theme, or on all three, according to your interests and ambitions. You'll learn the principles of communication across a range of media and cultural contexts, through a mix of theoretical and practical work. You'll gain the specialist analytic and creative skills needed to launch your future career.

After you graduate

Students have previously held internships at:

- the BBC
- Disneyworld Florida
- Sky TV.

Recent graduates have gone on to work as screenwriters, social media managers, TV presenters, media analysts, communications officers, digital game producers, design experts and creatives for global and local companies.

“The great thing about the course is that so much of the theory you learn has a direct practical application. I've done some video editing and software editing, which helps with my interest in journalism.”

What you will study

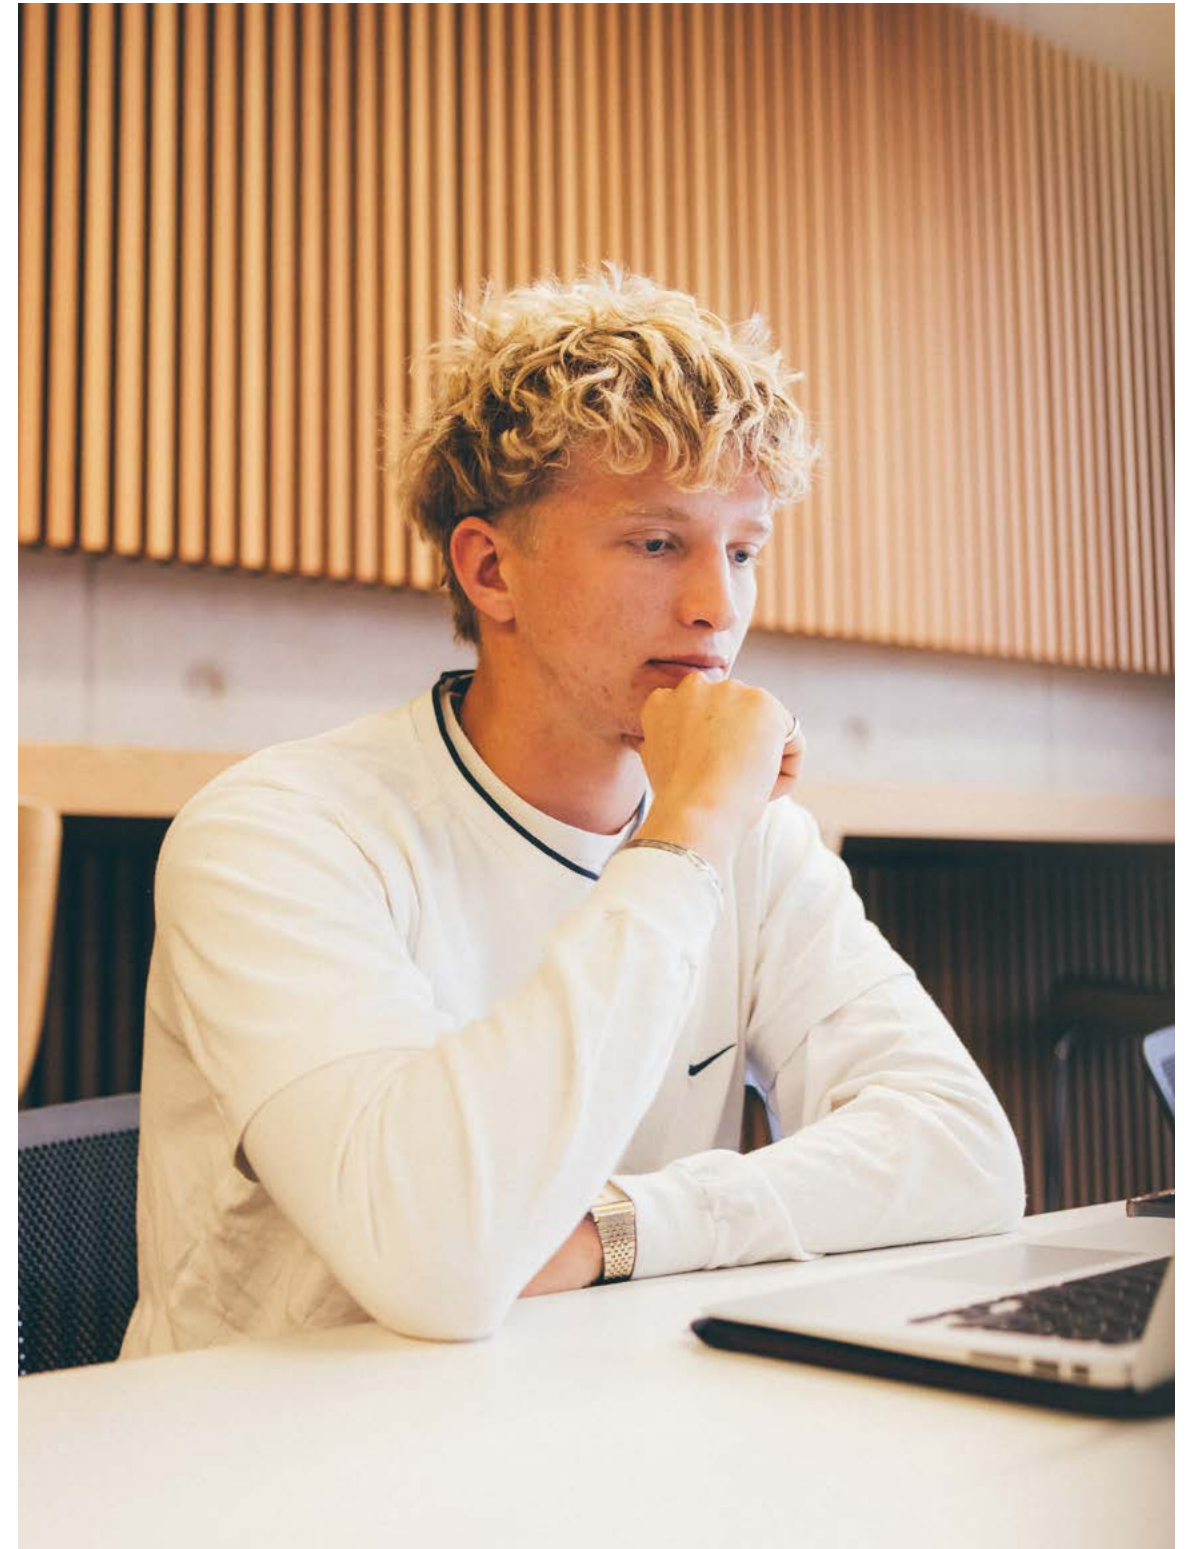

This course is for students who want to work with content-producing organisations. You will develop knowledge and practical skills in news and feature writing, publishing design and new product innovation, as well as video and audio, marketing and PR. You can study the media industry more broadly or choose a pathway to specialise in journalism or book publishing. Our staff have invaluable industry experience and continue their connections through research and consultancy. There will be regular opportunities for industry field trips and work experience. You will graduate with a portfolio of content across media formats.

After you graduate

This course gives you the skills and confidence to work in a range of media roles. Our alumni are working throughout the media industries and career options include the creative industries, publishing, journalism, public relations, social media, content marketing, communications, radio and television, NGOs and arts administration. National Council for the Training of Journalists (NCTJ) industry accreditation is available to students who study the Journalism pathway on this course.

Our industry network extends to leading media organisations such as Bloomsbury, Penguin Random House, Hearst, Condé Nast, BBC and Google.

Computing, Mathematical Sciences and Digital Technologies

Turn your passion for computers and technology into a career with our computing courses. Learn to programme and explore advanced approaches such as artificial intelligence. You will be taught by academics who are experts in their fields and passionate about future technology and the solutions it can provide. In all of our courses you will learn the relevant skills needed to have a successful career in computing.

TOP 3 REASONS TO STUDY WITH US

1. **Excellent career prospects.**
Our students have taken up work placements with companies including Accenture, BMW, the BBC and Sophos.
2. You will use **high-specification computers and networking hardware** and learn industry-standard programming skills sought after by employers.
3. You can get involved in exciting projects such as the **Autonomous Vehicle Society** – where you can help write code to navigate a driverless racing car.

What you will study

Artificial Intelligence (AI) is all around us. From the voice-activated assistant in your phone to driverless cars. We have developed this course to meet the needs of the real world. This means you will study the latest theories and technologies relating to AI. You will explore units in machine learning, robotics, software development and problem solving. Get hands on in state-of-the-art computer labs, with teaching delivered by leading researchers.

After you graduate

You will graduate with a deep understanding of AI, and the knowledge of how to implement novel technological solutions for real-world problems. Exciting career options include AI driven app development, machine learning, data science and intelligent systems.

“We have engaged in world leading research in Artificial Intelligence and machine learning for more than 15 years, ensuring our students directly benefit from real-world solutions in this rapidly developing technology.”

PROFESSOR NIGEL CROOK, ASSOCIATE DEAN:
RESEARCH AND KNOWLEDGE EXCHANGE, FACULTY
OF TECHNOLOGY, DESIGN AND ENVIRONMENT

www.brookes.ac.uk/ai

What you will study

From designing apps for your phone to powering Google, it all starts with computer science. This course will give you a strong grounding in the theory and practice of computer science. You will learn about new technologies such as machine learning, AI, cyber security and programming. You also have the opportunity to spend a year working in industry on a paid placement. This will add invaluable work experience to your CV and help you stand out when looking for employment.

After you graduate

Your qualification is much needed by modern business and industry. Our graduates enjoy success in a range of areas, from working for large businesses to launching their own. Career options include software development, computer applications and managing IT systems for large businesses. The optional work placement provides invaluable real-world experience to give you an edge over other graduates.

Accredited by the
British Computer Society
(Full CITP, partial CEng)

www.brookes.ac.uk/compsc

What you will study

On this course you will develop fundamental skills in computer science and apply them directly to cyber security. Problem-solving skills are at the core of this course. Using the latest hacking and security technologies, you will test networks and design solutions to secure the network. Our state-of-the-art cyber security networking and server laboratories offer excellent facilities for you to use. You can also study for your Cisco CCNA professional qualifications, resulting in a recognised industry qualification.

After you graduate

There is a shortage of skilled graduates in cyber security and it's regarded as a critical area by business and government. This course will fully equip you for a career in this sector. The placement year option will help you gain invaluable experience for your CV. The option to study for your Cisco CCNA professional qualifications will also help you kick start your career.

Careers include IT professionals, penetration testers, digital forensic investigators, software developers, systems engineers and technical analysts.

This course has been awarded provisional GCHQ certification, the gold standard for courses in Cyber Security.

www.brookes.ac.uk/cyber

What you will study

If you want to pursue a degree in computing but lack the necessary qualifications, our Computing Foundation course is for you. You will gain the knowledge and skills to progress to an undergraduate degree in computing. You will gain hands-on experience with the latest computing software used by the industry. You will learn programming concepts, networking and robotics. We teach mathematics at different levels and will help you to bridge any gaps in your learning.

After you graduate

There is high demand for graduates in all areas of computing and information technology. This course is excellent preparation for undergraduate study at Oxford Brookes. After successfully completing the course, you will be offered admission to a computing related degree. A degree in computing is a great start to careers such as software development, network security and computer applications.

“I was interested in computer science but did not have much experience so the foundation year seemed a promising option. From the foundation year, I managed to get onto one of the bachelor programmes which was a lot of fun!”

What you will study

This Foundation Year in Mathematics will give you the skills and knowledge required to progress onto an undergraduate degree in mathematics. This course will start with a thorough revision of GCSE and A-level Mathematics and will continue with an introduction to university mathematics. Furthermore, you will learn transferable skills that are key for undergraduate studies in Mathematics such as coding and data analysis. These skills are in high demand by employers in exponentially growing sectors.

After you graduate

This course is the perfect preparation for advancing onto an undergraduate degree in mathematics. You will graduate with the knowledge and skills required to study university level mathematics. Your problem-solving skills will be enhanced and you'll gain analytical skills that will be pivotal to progressing onto further study.

Our Mathematics degrees have recently been revised to ensure we are delivering a degree that will prepare you for a career at the forefront of this digital, data driven age.

What you will study

The future of almost every industry relies heavily on the need for skilled IT professionals. Our Information Technology for Business course equips you with the range of skills you need to manage IT applications in professional practice. You will learn about commercial software development, information systems, business and practical management skills. You will have access to excellent facilities and state-of-the-art technology. You will have the opportunity to put those skills into practice with a professional work placement.

After you graduate

This course has been developed in response to businesses' need for skilled graduate employees who can manage the information technology function. The profile of students from this programme has been tailored to match the requirements of some of the biggest employers of IT graduates. The combination of technical knowledge, business awareness and interpersonal and project skills will make you especially well qualified for an increasingly diverse job market in managing IT applications.

UCAS tariff points 112 to include A-level Mathematics grade B

For further guidance on converting your grades to UCAS points, see page 157.

What you will study

This course combines mathematical and statistical skills with scientific computing to equip you with the knowledge and tools to deal with the challenges of our modern, data-driven society. You will learn how to use programming to model and solve complex mathematical problems from science and industry. These skills are highly sought after by employers. You will also study a variety of the applications of mathematics. These include financial mathematics, machine learning and data analysis.

After you graduate

Recent research has shown that graduates in mathematical disciplines enjoy one of the highest earning potentials of all graduates. Employers recognise that mathematical knowledge and skills are essential to the solution of many current problems, not only in science and technology but also in business and commerce. Taking this course can lead to a wide range of career options, including banking, actuarial science and data science.

Combining theory and practice, our mathematics students learn to solve complex problems using modelling and scientific computing.

For further guidance on converting your grades to UCAS points, see page 157.

What you will study

Early Childhood practitioners with specialist skills and professional knowledge are needed – now more than ever – to support children and families with the challenges of the 21st century. On this course you'll explore the biggest issues facing children today – like:

- digital technologies
- inequality, and its impact on children and families
- children's emotional health.

You'll also build sought-after practitioner skills for a career working with children, families and communities. You'll build hands-on experience through your placements. And you'll graduate with convincing experience on your CV.

After you graduate

Many graduates go on to train for related jobs such as: teaching, social work, educational psychology, play therapy and youth and family work.

Recent graduates have taken up jobs in educational publishing and educational charities. Some graduates use the degree as a platform to go onto careers in a wide variety of areas such as marketing, law and business.'

“The best thing about the course is the range of modules offered, from the unique outdoor learning module to the special needs modules. This was an area I'd never really looked into before, and really enjoyed.”

✔ TYPICAL OFFERS UCAS tariff points 104

For further guidance on converting your grades to UCAS points, see page 157.

What you will study

You'll join a course whose graduates inspire thousands of children and lead in hundreds of schools across Oxfordshire and beyond. School leaders know our graduates can tackle any classroom. And because you'll train across a range of schools, learn from several mentors, and test out a multitude of techniques – you'll graduate able to thrive in any classroom.

After you graduate

Successful completion of the course will lead to recommendation for Qualified Teacher Status (QTS). You must successfully complete an induction year as part of the Early Career Framework to gain QTS. Graduates are very successful in finding appointments in primary schools nationwide. Feedback shows a high level of satisfaction with teachers who graduated from this course.

“The course at Oxford Brookes not only provides a background and wealth of knowledge on child development and learning, but also provides guidelines for how to teach, plan lessons, how to assess children and activities that you can use in school.”

JOANNA BIRD, GRADUATE

www.brookes.ac.uk/pte

“Oxford Brookes is truly a university where students feel valued and looked after.”

ALICE LAIDLER, EDUCATION STUDIES SENDI STUDENT

English, Theatre and Creative Writing

Oxford is a beautiful city that offers an unmatched literary history. It is the perfect place to study English, literature and communication whilst also being challenged and inspired. Our courses allow you to gain specialist language and communication skills that are highly valued by UK and international employers. You'll experience dynamic exchanges of ideas around literature, language and contemporary culture. You'll also gain real-life experiences through the excellent partnerships we have with the city's main arts and cultural providers and leading companies that make our city an incredible communications hub.

TOP 3 REASONS TO STUDY WITH US

1. Benefit from **outstanding teaching by world class academics** who are active researchers and leaders in their field.
2. **Gain real life experience** and explore our partnerships by taking opportunities in and around Oxford.
3. **Develop excellent employment skills**, from analytical and problem-solving skills to great team working and communication skills, on our courses.

✔ TYPICAL OFFERS UCAS tariff points 104

For further guidance on converting your grades to UCAS points, see page 157.

What you will study

You'll join an exciting hybrid course that combines the conservatoire-style study of acting and performance with the academic study of post-Renaissance drama as text. You'll learn through an exciting and eclectic mix of theoretical and practical modules, and examine contemporary pieces that deal with political and social issues. And with its strong employability focus, the course prepares you for many careers in theatre and the arts.

After you graduate

You will also be taught at the Old Fire Station, a professional theatre in the centre of Oxford. This enables you to develop hands-on, practice-based skills in all aspects of theatre production both on and off the stage. You'll also take a compulsory work placement module and gain employment skills, including:

- communication
- self-presentation
- interpersonal skills.

You'll emerge with valuable insight into the theatre arts industry, along with the practical skills and confidence to start your career.

www.brookes.ac.uk/dta

What you will study

Discover the diverse field of language and linguistics. You'll study how language works and how we use it to communicate effectively in today's globalised world. You'll explore topics such as the relationship between language and identity, how the brain processes language and how language analysis can help to solve crimes. You will study areas of sociolinguistics, psycholinguistics, and language learning and teaching, amongst others.

After you graduate

You will have developed skills in analysing texts for their communicative function and persuasive techniques, as well as in relation to their (inter) cultural aspects. This is an advantage in the UK and international job markets. Recent graduates now work in broadcast media (BBC, ITV), print journalism, publishing, marketing, advertising, teaching (in the UK and overseas) and financial PR.

We have strong links with local innovative PR companies that run national campaigns.

www.brookes.ac.uk/elc

What you will study

Read some of the greatest works of literature ever written and examine major issues that have affected society across the centuries. From Shakespeare to the present day, you'll explore authors and ideas that have shaped how we see the world, studying exciting areas of interest such as literature and technology, crime and transgression and how to build a utopia. Challenge your beliefs and develop your awareness, while gaining the skills you need for the future.

After you graduate

As an English Literature graduate you will be able to communicate with clarity and confidence and will possess refined analytical and reasoning skills. Recent graduates have entered careers in publishing, journalism, advertising and media, public relations, teaching and commerce. Others have gone on to further study such as our English Literature or Creative Writing MAs.

"The combination of lectures and seminars has proven to be an excellent framework for effective study for me and provided a friendly and supportive environment in which topics can be discussed and developed."

CHRISTINA STORES, GRADUATE

www.brookes.ac.uk/englit

What you will study

Develop your creativity and focus as a writer within a close-knit community of writers and an academic team who are experts in their field. As well as learning the core skills of critical reading and creative writing, you will focus on the area of literature that inspires you most. Follow your passions and discover new strengths and creative talent. Take creative writing modules throughout your degree, and produce an extended creative project in your final year.

After you graduate

You will be able to communicate with confidence, possess refined analytical and reasoning skills and express yourself both critically and creatively. Recent graduates have entered careers in publishing, journalism, advertising and media, public relations, teaching and commerce. Others have gone on to further study – for example with our Creative Writing MA.

Our open lectures have had high-profile guest speakers, including international best-selling author Sir Philip Pullman.

www.brookes.ac.uk/englishcw

Health and Social Care

If you want a career in nursing, midwifery, social work or one of the allied health professions (AHPs) we can give you a great start. All our degrees are approved by regulatory bodies including the Nursing and Midwifery Council and the Health and Care Professions Council. You'll be learning from clinically experienced staff and will gain work experience in a variety of settings.

TOP 3 REASONS TO STUDY WITH US

1. Courses are **underpinned by internationally leading research** from the Oxford Institute of Nursing, Midwifery and Allied Health Research (OxINMAHR), which is based at Oxford Brookes.
2. Nursing and Midwifery students are members of the Oxford School of Nursing and Midwifery, **a unique partnership** with Oxford University Hospitals and Oxford Health NHS Foundation Trusts.
3. The Occupational Therapy and Physiotherapy **programmes work closely with the highly regarded researchers** from the Centre for Movement, Occupational and Rehabilitation Sciences.

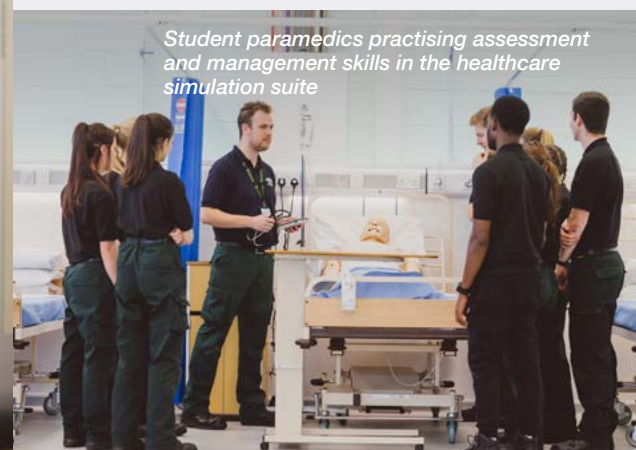

Physiotherapy students practising clinical skills

Nursing students simulating hospital life support

94% of our Nursing and Midwifery students are in employment 6 months after graduating.

BSc (Hons) single honours

📍 LOCATION

Headington Campus,
Marston Road site

📅 DURATION

FT 3 years; post-experience
2 years

🏢 WORK PLACEMENT

Compulsory

All applicants will be screened for fitness to practise. A disclosure and barring (DBS) check will also be made.

👤 OPEN TO

UK and international students

📅 COURSE START DATE

September

✔ TYPICAL OFFERS

UCAS tariff points 120
including one A-level or
a comparable Level 3
qualification in a science or
social science subject

For further guidance on
converting your grades to
UCAS points, see page 157.

What you will study

This course will prepare you to become a knowledgeable, autonomous and compassionate professional. We focus on woman-centred care through:

- critically evaluating and applying evidence that supports midwifery practice
- gaining a thorough understanding of relevant anatomy and physiology.

The programme is accredited as Baby Friendly by Unicef.

After you graduate

As a registered midwife, you will have the opportunity to practise in hospital and community settings, pursue independent practice, or develop your career in specialist settings, including:

- specialist practice, for instance, in high-dependency care or infant feeding
- consultant midwife posts
- teaching
- management and research.

September

✔ TYPICAL OFFERS

UCAS tariff points 104

For further guidance on
converting your grades to
UCAS points, see page 157.

What you will study

This course covers nursing care across a patient's adult life span. You will develop knowledge of delivering patient centred care, using practical nursing skills, understanding health care systems and managing illness. Your learning will be based on recent developments in the field, enabling you to adapt to the evolving healthcare industry. We encourage flexible approaches to working and collaboration with service users and other professionals in practice to optimise care.

After you graduate

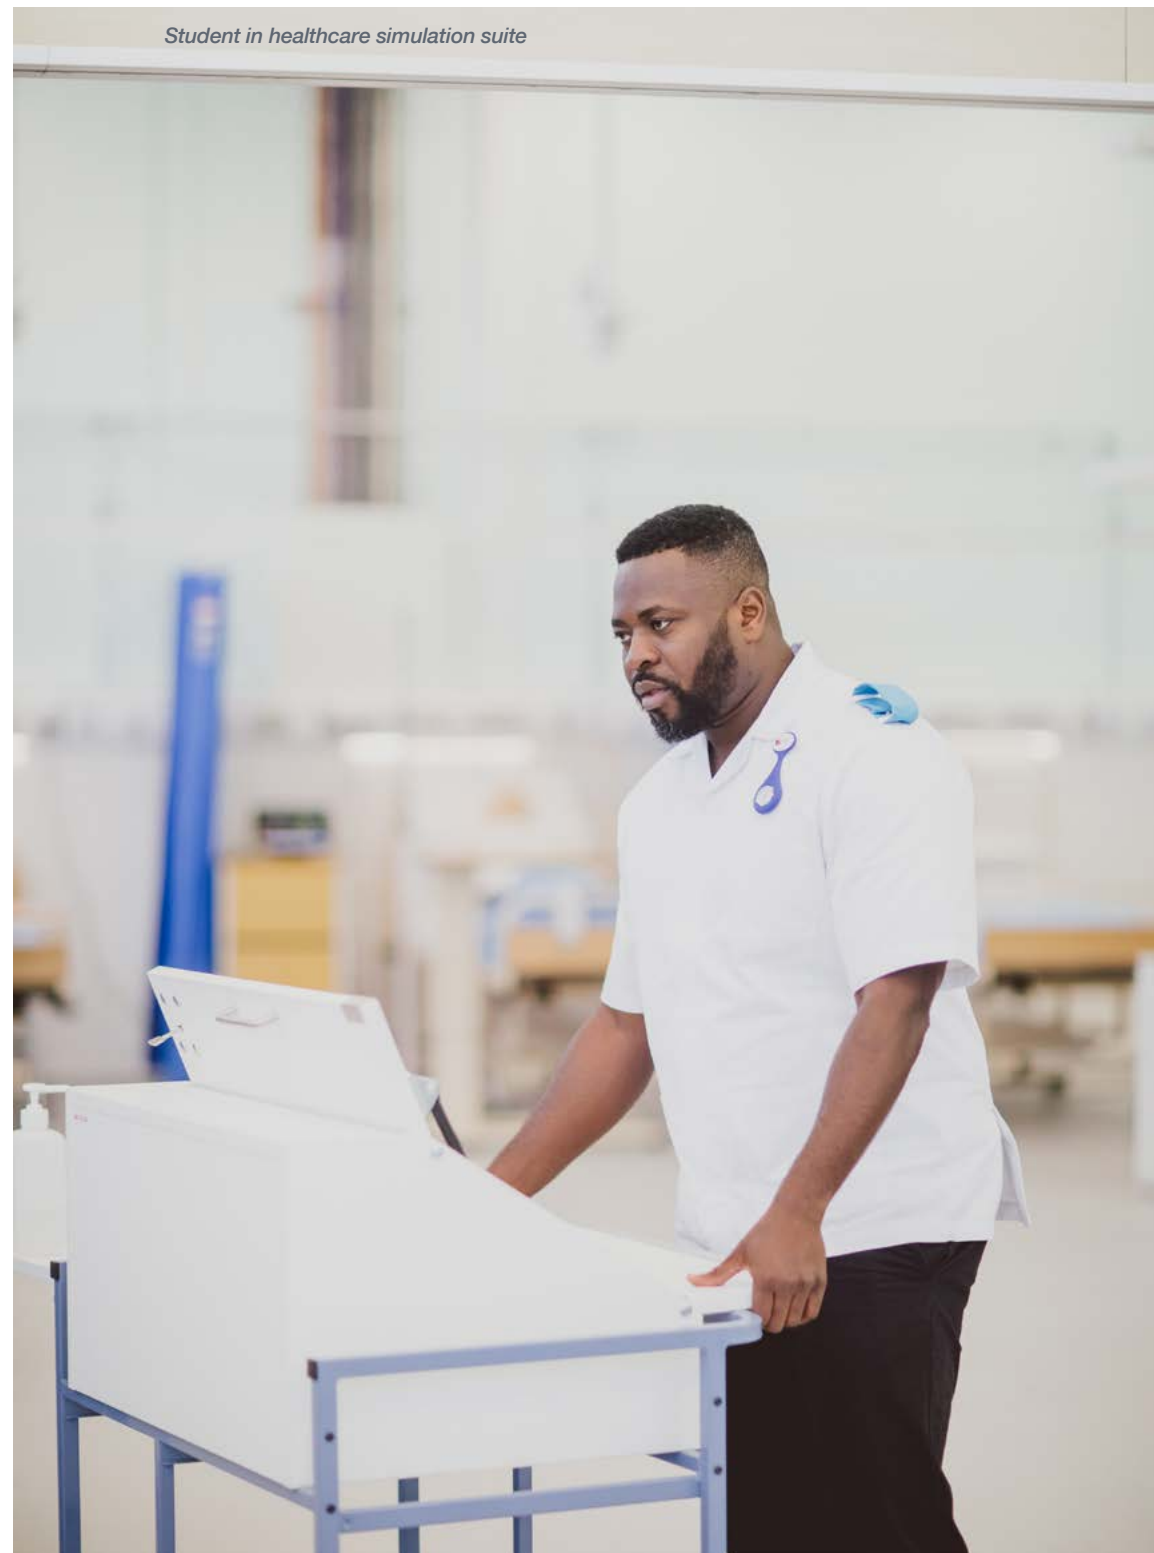

As a registered adult nurse, you can develop your career in a range of settings:

- in patient wards where medical or surgical treatment is given
- intensive care units
- emergency departments
- operating theatres
- community/district nursing
- practice nursing
- nursing within the private sector.

September

✔ TYPICAL OFFERS

UCAS tariff points 112 including one A-level or a comparable Level 3 qualification in a science subject

For further guidance on converting your grades to UCAS points, see page 157.

What you will study

This course covers nursing care with a focus on meeting the needs of children and families. You will gain the knowledge, skills and attitudes needed to deliver quality care to children and their families from 0-24 years. You will acquire knowledge of fundamental nursing skills, health care systems and illness management. Our learning will enable you to adapt to the evolving healthcare industry.

We encourage flexible approaches to working and collaboration with service users and other health professionals in practice to optimise care.

After you graduate

You will be well prepared for employment and will have the ability to work as a staff nurse in a range of settings. Most students get a post within children's healthcare, shortly after graduation.

As you progress, you will have a wide range of options open to you, including careers in:

- clinical practice within hospitals or communities
- management
- nurse education
- research.

For further guidance on converting your grades to UCAS points, see page 157.

What you will study

Paramedics are registered healthcare professionals, providing unscheduled assessment and management to patients who have various illnesses or injuries. You will learn the clinical skills, knowledge and resilience to care for patients with urgent or emergency healthcare needs, from experience in multiple clinical settings. Your course includes academic modules, various clinical placements and simulation-based education.

After you graduate

Paramedics can develop specific areas of expertise as well as specialist and advanced paramedic roles, including:

- clinical practice
- critical care
- education
- forensic medicine
- leadership roles
- providing urgent and emergency care
- remote medicine
- research.

Professional Development in Health and Social Care

BSc (Hons) single honours

📍 LOCATION

Distance learning

📅 DURATION

FT 1 year, PT 2 years

👤 OPEN TO

UK and international students

📅 COURSE START DATE

September

✔ TYPICAL OFFERS

Applicants will typically have a Diploma in Higher Education and will be working in a health or social care related role. Offers will depend on experience and/or previous academic study.

What you will study

This course focuses on the promotion, restoration and maintenance of health and wellbeing. There is an enquiry-based style to learning combined with a focus on physical approaches. By sharing some modules with other health and social care students you will be prepared to work with a variety of healthcare professionals.

After you graduate

Upon successful completion of the course, you will be eligible to apply for registration with the regulatory body, the Health and Care Professions Council (HCPC), and may apply for membership of the professional body, the Chartered Society of Physiotherapy (CSP).

As a registered physiotherapist you can work in a wide range of fields including:

- neurological, respiratory, musculoskeletal care in acute or clinical community settings
- specialist areas of practice, research, teaching, health promotion or management
- sport, industry and private practice.

What you will study

This top-up degree is designed to provide a flexible pathway for students who want to turn their undergraduate diploma, or similar, into a degree.

It is an opportunity to use your work experience as a foundation for academic study which is highly relevant to your role. The modules focus on areas of quality enhancement, mentoring, leadership and evidence-based practice.

After you graduate

We align the course content with health and social care roles and current practice priorities. Successful completion of the degree will support your continuous professional development, overall employability, further study at postgraduate level.

Social Work

What you will study

Being a confident Social Worker means helping people in diverse and changing social contexts. Our course will help you become a competent, resourceful and confident practitioner, able to work autonomously in multiprofessional environments. We will give you the theory and practical time to develop skills that challenge systematic inequalities at individual and social levels.

This course leads to the qualification you need to apply for social work registration in England with Social Work England.

After you graduate

Once you have completed the course, we will inform Social Work England that you have done so, which allows you to register with our regulatory body and work under the protected title of 'Social Worker'. A social work qualification prepares you for future work with both children and adults.

Graduates have gone on to work in a variety of settings in charities, private and public bodies. In addition, a social work degree can enable you to go on to do research, train others or practise overseas.

“My course gives the right mixture of time in seminars and lectures, as well as time to practise my skills on placement in a ward setting. General student life in Oxford is incredibly exciting. I’m a country girl so being in the city is a huge change for me and I am learning to embrace this!”

UCAS tariff points 104

For further guidance on converting your grades to UCAS points, see page 157.

What you will study

You will develop and gain a deep knowledge of different periods from 1500 to the present day. You'll explore pivotal events and tackle challenging issues like power, crime, gender, warfare, medicine, and race. You'll have the flexibility and freedom to explore your interests and improve your skills as a historian. You'll investigate sources, learn to present effective arguments and be able to focus on specialist areas – while receiving guidance and support from academics who are experts in their field.

After you graduate

You will gain transferable skills crucial to the employment market. You can enhance your career prospects by carrying out a work placement in a range of settings such as museums, heritage sites or archives.

Graduates have entered the civil and diplomatic services, law, teaching, business, publishing, marketing and the heritage industry. Some also go on to further study – often through the History MA here at Oxford Brookes.

“What makes the teaching here so great is that the modules are tailored so that they match the lecturers’ areas of expertise, ensuring that you are always being taught by someone who is extremely well informed about the subject.”

ISOBEL WILKINSON RIPPIN, GRADUATE

www.brookes.ac.uk/history

What you will study

This course provides you with the opportunity to deepen your knowledge and appreciation of the history of art, from Renaissance to Modernism. In a stimulating and enriching environment, you will be taught by specialists in painting, architecture, sculpture, design and art theory. You will undertake guided visits to museums and galleries in Oxford and London, and an outstanding feature of this course is the field trip to Paris taken in Year 2.

After you graduate

Recent graduates have taken up posts in the Ashmolean Museum, the National Portrait Gallery and Sotheby's. Others are currently working in arts journalism and teaching. A number of students have been inspired to continue their studies at postgraduate level. There are opportunities to gain work placements in a number of Oxford museums or by working with Oxford Brookes' own collections.

“The opportunity to take part in a field trip to Paris was something that really attracted me to the course at Oxford Brookes. I really enjoyed the insightful and frequent visits to museums and galleries that were organised as part of the course.”

VY TRAN, GRADUATE

UCAS tariff points 72

For further guidance on converting your grades to UCAS points, see page 157.

What you will study

Our Foundation in Humanities course lets you examine a broad range of humanities subjects such as History, Philosophy, English Language and English Literature, whilst developing your oral, written and interpersonal skills. Our course is ideal if you want to study at Oxford Brookes but need to supplement your A-levels, or if you are returning to study after a long break. Throughout the course, your academic adviser will provide advice and support and will help you explore options for continued study.

After you graduate

Successful completion of this course guarantees you a place on a range of degree courses in the Faculty of Humanities and Social Sciences at Oxford Brookes. These include Anthropology, Criminology, Education Studies, English Language and Linguistics, English Literature, English Literature with Creative Writing, Geography, History, History of Art, International Relations and Politics, Philosophy and Sociology.

Successfully completing this course will guarantee entry on to a number of degree courses here at Oxford Brookes.

What you will study

This course allows you to develop a strong base of knowledge in an exciting range of humanities and social sciences subjects such as History, Politics, Philosophy, English Literature, and History of Art. In your first semester you'll also study a modern language, and then have the option to further develop your language skills. This multidisciplinary approach means that you will develop your critical thinking skills, while widening your cultural perspectives and learning how to apply interdisciplinary thinking to finding solutions to global issues.

After you graduate

Throughout the course you will develop a diverse range of skills that are highly valued by prospective employers, such as learning how to identify, locate and apply reliable information effectively. This course is excellent preparation for a career in a wide range of sectors such as journalism and the media, marketing and advertising, public relations, business management, local government and much more.

This course is particularly well suited for students who would prefer to study a broader range of disciplines rather than a single subject area.

What you will study

This course reflects the diversity of the events management industry by exploring a range of event areas – from sports to culture and business. It is underpinned by the UN's Principles of Responsible Management Education and considers the impact of events on the wider community. You will develop specialist understanding of events management including operational, marketing and legal requirements, and resource and project management. You will have the opportunity to work on live events to further develop your practical skills. You will also have the opportunity to undertake a one-year graduate-level work placement to enhance your CV and network within the industry.

After you graduate

You will become an events management professional with a range of transferable skills to succeed in the events industry. Sectors include conference and exhibition centres, events and marketing agencies, charities, corporations, sports organisations and venues such as hotels and visitor attractions.

“This course has given me the opportunity to explore an exciting industry and has provided me with skills to work in various roles. The teaching staff are fun, friendly and really supportive, I have really enjoyed my time studying here at Oxford Brookes!”

For further guidance on converting your grades to UCAS points, see page 157.

What you will study

This course will develop your critical and analytical skills, expanding your knowledge of the marketing and events management fields. As a marketer you will learn about its dynamic business function, providing the vital link between the marketplace and strategic decision making. As an events manager, you will explore people, resources and project management alongside operational and legal requirements for events organisation and management. To enhance your employability, you will be encouraged to participate in a one-year work placement.

After you graduate

You will be prepared to enter careers across the events sector including conference and exhibition centres, events and marketing agencies, charities, corporations, sports organisations and venues such as hotels and visitor attractions.

“I got a feel for the course through an open day and understanding what the course structure looked like, it was important to me to have a good balance between classes and social life which was portrayed.”

HUGO MACRAE, INTERNATIONAL HOSPITALITY AND TOURISM MANAGEMENT STUDENT

Languages

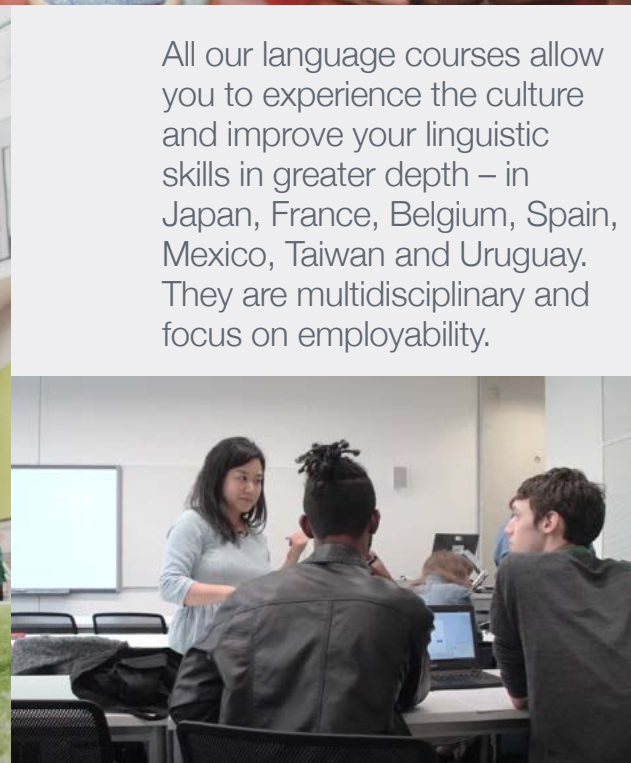

In today's globalised economies, language skills are highly valued by most modern-day employers. Alongside world-class language teaching, you'll learn about the country's history, culture and business working environment. You will not only graduate with a globalised perspective, but you'll gain solid language and communications skills that will make you stand out from others in your career.

TOP 3 REASONS TO STUDY WITH US

1. You'll have **access to talks and events** with artists, scholars and other well-regarded cultural experts in your chosen language. You will also have the opportunity to attend free cultural and linguistic lectures in Oxford.
2. Our students on the BA Applied Languages course obtain **highly sought-after work placements**. Recent work placements have included Media-Slide, Asenium consultants in Paris, Midi-Loc in Antibes, SEK schools in Madrid and Barcelona and Chocolates del Mundo in Santiago de Chile.
3. You **can start Japanese from scratch** and graduate with a job in Japan. This is supported by a full-year study abroad in Japan, interactions with Japanese students through buddy schemes and language exchange modules.

Students enjoying a traditional tea ceremony in our Japanese Room with Senior Lecturer Alex Jacoby

All our language courses allow you to experience the culture and improve your linguistic skills in greater depth – in Japan, France, Belgium, Spain, Mexico, Taiwan and Uruguay. They are multidisciplinary and focus on employability.

What you will study

Develop your professional skills as a linguist by tailoring your degree to your interests: study two modern languages, pick specialist options and carry out a study and work placement in one or two countries. After your second year, this course allows you to further specialise in either both of your languages, or in your main language and your professional options, or continue studying all three.

After you graduate

You will graduate with advanced communication skills in one or two languages, specialist knowledge of your chosen professional options, valuable work experience and highly developed cultural awareness. This combination will make you attractive to future employers.

Previous graduates have gone on to careers in the media, public relations, language teaching, event management, and international organisations. Many also continue to do postgraduate study, including business, international development, teacher training, and transnational studies, amongst others.

“There are so many topics you can do on this course. I did French, Japanese and International Relations, but my dissertation was on marketing strategy.”

What you will study

Gain insights into Japanese history and culture while learning to speak, read and write the Japanese language. You'll study aspects of Japanese society and culture, from ancient Shinto customs to modern manga cartoons. You'll develop strong language skills ranging from conversation to translation. During your placement year, you will pursue an intensive language course and will explore Japanese culture at one of our partner universities in Japan.

After you graduate

In addition to Japanese language skills and the ability to negotiate cultural norms and differences, you will graduate with excellent analytical, team-working and presentation skills that will make you attractive to employers.

Graduates have found positions at the Japan Foundation and the Japanese Embassy in London. Others have worked in tourism, international management and media, translation and language teaching.

“I'd bought a really interesting book on Japanese culture and when I was selecting which university to go to I realised that one of the lecturers at Oxford Brookes had actually written the book.”

ANDREW BANKS, GRADUATE

www.brookes.ac.uk/japanese

Tsutenkaku tower in Osaka, Japan

Law and Criminology

When you study with us you'll examine pressing legal issues facing today's global societies and how crime impacts the world today. As a law student, you'll develop a deep appreciation of the legal system and the role of law in society. As a criminologist, you can investigate the causes of criminal behaviour and its impact on society. You'll learn from leading researchers and have opportunities to build knowledge and skills – that are attractive to employers.

TOP 3 REASONS TO STUDY WITH US

1. You'll be **taught by world class researchers** – so your learning will always be underpinned by the latest developments in your field.
2. As a law student, there are **opportunities to attend career enhancing employability events**, such as: guest lectures, law fairs, mentorship programmes, pro bono work schemes and mock trials with real judges and legal practitioners.
3. You can **gain practical experience through our Criminology Work Placement Scheme module**. And you'll gain an excellent foundation from which to pursue a career as a criminology practitioner or in any other field.

Moot court in Headington Hill Hall

The School of Law's pro bono scheme was set up by two students in 2001 to harness students' skills for the benefit of the community. Pro bono provides a valuable introduction to the world of legal practice, and is highly valued by employers.

What you will study

Examine the critical issues facing our society today – like digital crime, human rights and the criminal justice system. On this course, you'll interrogate the root causes of criminal behaviour. You'll explore the pressing issues facing our society, from knife-crime and sentencing, to globalisation and immigration. You'll also examine how gender, race and technology influence our understanding of crime. You'll be able to do a work placement in an area like prison services, police, charities or schools. And you'll build a strong understanding of how organisations like these identify and fight crime.

After you graduate

You'll graduate with the skills and knowledge to jump into a Criminology practitioner role – and you'll have the transferable skills that are relevant to a wide range of other sectors as well. Graduates may progress to careers in crime consultation, criminal justice, charity and human rights. They might also work for local authorities, police forces or community support services.

'We have great discussions in seminars; they really open your mind to how criminology relates to many aspects of your day-to-day life, that you wouldn't think so.'

SKYE WILSON, STUDENT

www.brookes.ac.uk/criminology

What you will study

Explore crime and crime control while mastering key concepts within Law. On this course, you'll study exciting criminology themes like criminal justice, policing, digital crime and drugs. You'll also examine highly relevant legal issues like human rights, criminal law and computer law. You'll develop sought after career skills – like problem solving, analysis, project management and persuasive communication. You'll have the opportunity to do a work placement in an area like prison services, police, charities or schools.

After you graduate

You'll graduate with the skills and knowledge to jump into a wide range of careers. Graduates may progress to careers in crime consultation, criminal justice, charity and human rights. They might also work for local authorities, police forces or community support services.

What you will study

Join our supportive and close-knit legal community and gain the academic knowledge and critical skills needed to study for a law degree. This course draws upon teachings from our School of Law, which means you will develop key legal skills, enhance your problem-solving and oral skills, and develop highly valued competencies in legal research and writing. This course is ideal if you want to study Law at Oxford Brookes but need to supplement your A-levels, or if you wish to return to study after a long break.

After you graduate

Successful completion of this course gives you guaranteed entry to any of our undergraduate courses within the School of Law. Additionally, by the end of this course you will have been coached in written expression, presentation skills, independent learning, accessing information from a range of sources and working to deadlines. All of these qualities are highly valued by employers in a range of workplaces.

You will have small group tuition in essential academic skills.

What you will study

This course practically explores a variety of marketing and business concepts. These will help mould you into a confident and effective manager. You'll develop the skill set needed to tackle real-world problems, including critical analysis and problem solving, and to communicate complex ideas effectively. Input from expert practitioners and applied coursework projects will enhance your learning experience, helping to prepare you for the world of work. You will be encouraged to undertake a one-year work placement to enhance your CV and make industry connections.

After you graduate

Graduates of this course have gone on to managerial careers in business, digital marketing, retail and marketing communications in a wide range of organisations including Amazon, GlaxoSmithKline, Microsoft and Unilever.

What you will study

On this course, you will develop your critical and analytical skills and gain a solid understanding of current and emerging thinking in the marketing and marketing communications fields. Live projects and guest speakers will provide contemporary insight into today's ever-changing global markets, giving you the competitive edge in the challenging and exciting world of MarComms. You will be encouraged to take a one-year work placement to further build on your skills learned on this course.

After you graduate

Previous marketing graduates have used their creative skills to embark on agency careers with companies such as Ogilvy and Mather. Others have taken on more specialised communications or campaign management roles within organisations such as Cancer Research UK, Sky and Virgin Media.

Our marketing graduates have gone on to work at companies such as Now TV, Microsoft, Chelsea Football Club, Mars, and Procter & Gamble.

www.brookes.ac.uk/busmark

www.brookes.ac.uk/marcomms

“All the modules are incredibly engaging, the senior academics all want you to do really well so offer lots of support, workload is evenly distributed and you work on projects that you like to do.”

TOM KNOTT, MARKETING MANAGEMENT GRADUATE

What you will study

This course will deepen your understanding of how marketing is planned, implemented and controlled. You'll explore the fundamental concepts of marketing, including strategic marketing, planning and management. Our teaching approach blends theory and practice through a wide variety of activities including live client projects, as well as engagement with marketing practitioners. You will develop your employability skills throughout the course and are encouraged to undertake a one-year work placement.

After you graduate

Graduates have taken on a general marketing role or graduate traineeship, or have focused on a more specialised role in digital marketing, marketing communications, retail or brand management. Employers have included Johnson and Johnson, MMR Research, Sky and Virgin EMI.

www.brookes.ac.uk/marketing

Mechanical Engineering and Motorsport

Oxford Brookes has a long standing reputation for delivering top-quality engineering and motorsport degrees. Turn your passion for road cars, race cars or design into career ambitions on our courses. Our links with industry-leading firms and Formula 1 give you access to outstanding work placements. Gain hands-on experience on the UK's no.1 Formula Student team, Oxford Brookes Racing (OBR) and help design and build the team's car for racing competitions.

TOP 3 REASONS TO STUDY WITH US

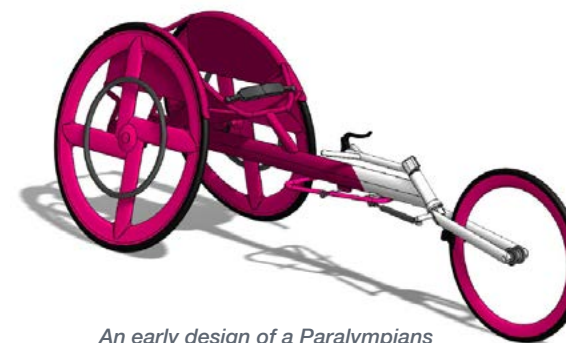

1. Our motorsport, automotive and mechanical engineering courses are **fully accredited** by the Institution of Engineering and Technology (IET) and the Institution of Mechanical Engineers (IMechE) on behalf of the Engineering Council. This includes an accredited placement year by the IMechE.
2. You'll be using **industry-standard facilities**, including engine test cells and a four-post shaker rig for analysing rigid body and vehicle dynamics.
3. Students benefit from our **strong links with F1 teams**, including work placements and recruitment opportunities.

Student at work in the Autolab

Our Formula Student team, Oxford Brookes Racing, finished **1st** in the UK and **2nd** in the world in the 2019 Formula Student competitions.

What you will study

The automotive industry is embarking on a journey of vital change as the world looks to move away from fossil fuelled vehicles. This course has been designed to equip you with the skills and knowledge for a career in this exciting field. You will study key engineering principles as well as design, management, dynamics and stress analysis. You will get hands on in the laboratories as you explore the future technologies that will power our cars.

After you graduate

The course has been developed with input from the sector and our graduates are highly sought after. Our work placement programme is commended by professional bodies as a model of excellence. Many of our graduates progress to further study. Employers of graduates include Aston Martin, Bentley, BMW, Cosworth, Cummins, Ford, Jaguar Land Rover, and Nissan.

What you will study

From space satellites to computer monitors, all kinds of products and industries utilise electromechanics. On this course you will explore how mechanical engineering, computing and electronics combine to produce modern appliances and systems. You will learn to design and build electro-mechanical systems and discover how the computing that controls them actually works. Through hands-on learning in the laboratories, you will learn a wide range of skills.

You will explore emerging technologies and study units in power systems, electrical engineering and robotic design.

After you graduate

Commercial organisations are looking to employ graduates who understand how these technologies combine. By studying this course, you will be at the forefront of the field. The expected career destinations for graduates include programming for electro-mechanical systems, robotics design and manufacture, research and development, technical sales, production engineering, and project management.

The course offers the opportunity to gain a Monitored Professional Development Scheme (MPDS) accreditation by IMechE through a work placement with one of the University's industry partners.

What you will study

If you have a passion for motorsport then our Motorsport Engineering degree is for you. We are surrounded by Formula 1 teams and leading automotive companies in Oxfordshire. They inform our teaching and ensure you have the necessary skills to compete in the industry. They also offer you excellent placement opportunities. On this course you will learn engineering principles specific to motorsport. You'll cover everything from aerodynamics to engineering design. You'll put your skills into practice with practical workshops and assignments in our engineering labs.

After you graduate

The local autosports industry supports the course and shapes its content. Oxford Brookes has a reputation for its students gaining graduate jobs with Formula 1 companies as race engineers, designers and chassis or powertrain engineers. In fact every current competing Formula 1 team has at least one Oxford Brookes graduate working for them. Companies that have offered work placements and employment opportunities include Mercedes GP, Williams, McLaren, Red Bull Racing and Prodrive.

UCAS tariff points 112

For further guidance on converting your grades to UCAS points, see page 157.

What you will study

This course teaches motorsport technologies and computer-aided design for racing cars. You will learn to create, analyse and improve the quality of engineering designs. We are surrounded by Formula 1 teams and leading automotive companies in Oxfordshire. They inform our teaching and ensure you have the necessary skills to compete in the industry. They also offer you excellent placement opportunities. You will graduate with a knowledge of the entire design process for racing cars.

After you graduate

The UK motor industry employs thousands of graduates each year and has a highly successful autosports sector. Whether it's rallying, F1, Indycar or touring car race, the chances are that a British car will be the winner. All F1 teams have employed Oxford Brookes graduates in the last three years.

On the other hand, your aspirations may lead you to design the next Mini or the latest executive saloon with an international pedigree. These are the career paths to which our undergraduates aspire, and Motorsport Technology provides the right balance of education and practical experience to equip you for this exciting profession.

www.brookes.ac.uk/motortech

“Staff seriously care about student wellbeing and are personally available to discuss solutions during the times of hardship. This course has proved that Engineering can be taught understandably, simply, in a funny and engaging way. And, most importantly, staff showed me the relevance of the modules in professional engineering.”

MAREK BIELAWA, MEng MOTORSPORT ENGINEERING GRADUATE

Nutrition, Sport and Physical Activity

Our degrees are designed to prepare you for a career in this important subject area spanning nutrition (including public health nutrition and clinical nutrition), health, sport, exercise science, coaching, and physical education. You'll learn from academics who combine passion for their subject with international recognition. Our strong employability strand helps you to build experience and create opportunities in a range of settings.

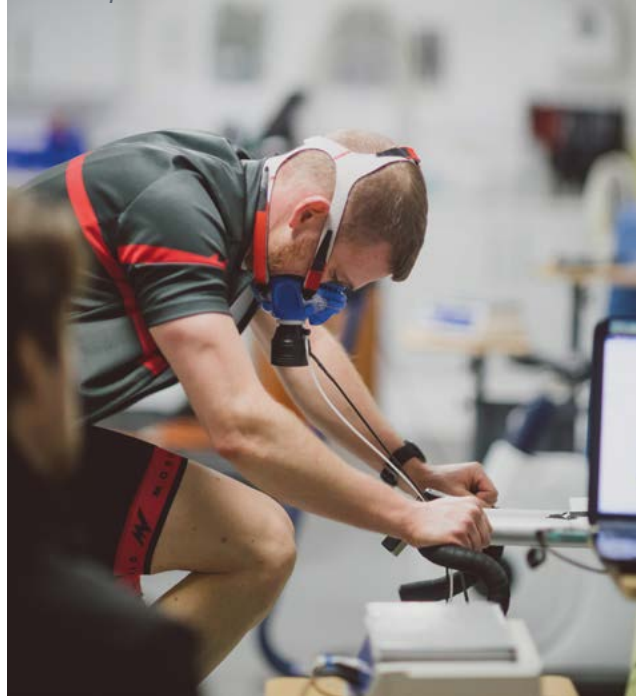

TOP 3 REASONS TO STUDY WITH US

1. Our degrees are **endorsed by the relevant professional bodies**.
2. Sport and Coaching Sciences staff **work in elite sport, or clinical rehabilitation, and lead both national and international initiatives**.
3. Nutrition students will get an **opportunity to be involved in commercial research and consultancy work** through our Centre for Nutrition and Health (OxBCNH), gaining employability skills in the process.

|---|--|

What you will study

You will learn to help people improve health and performance through nutritional knowledge and skills. You'll explore different topics including metabolism, physiology, psychology of foods, exercise behaviour, chronic diseases and food sustainability.

You will complete laboratory practicals in our new facilities, and have the opportunity to be involved in the research carried out in our Centre for Nutrition and Health, as well as external organisations.

In the third year, you will have the opportunity to carry out a nutrition-focused research project, working alongside experienced academics on current research developments.

After you graduate

You will obtain the practical skills, research, clinical and industry knowledge required to succeed in the field of nutrition. Our graduates have careers in the food industry, public health, health education, NHS and dietetics. Some of our students continue their studies undertaking MSc courses in dietetics and chronic disease specialist routes. We also have graduates that go onto medical school or pursue a doctoral degree.

|---|---|

What you will study

Evidence suggests that exercise benefits both individuals and societies. Society needs professionals trained in interpreting the health consequences of our current lifestyles as well as the more performance-focused requirements of athletes.

This course provides you with both academic knowledge and practical skills. The course also offers the opportunity to take part in a field trip to the Alps as part of an optional module. In addition, it provides the experience required to launch a career in this exciting field. You will have the ability to attain internationally recognised vocational qualifications which demonstrate a practical ability that is vital in postgraduate employability.

After you graduate

Our graduates have found employment in many areas including strength and conditioning (Watford Football Club), health promotion and community sports (County Council), clinical exercise physiology in cardiac rehabilitation (NHS), and sport science support for sports clubs eg Oxford United. They have also gone on to find jobs in teaching, community recreation and as research assistants.

What you will study

This degree is suitable for people who aspire to be outstanding coaches and teachers. It will also appeal to those who want a better understanding of the societal benefits of sport and physical activity.

The course focuses on problem-based learning so you can take theoretical ideas into practical settings. You will improve your employability through:

- placements
- industry mentoring scheme.

You will have the ability to attain internationally recognised vocational qualifications which demonstrate a practical ability that is vital in post-graduate employability.

After you graduate

Our graduates have found employment in many areas including sports coaching, physical education, sports development within local authorities, national governing bodies, sports clubs and private organisations, and marketing.

A strong employability strand within the degree includes a compulsory work experience module.

What you will study

This course will prepare you to be a future leader in the healthcare and fitness industry.

You will study:

- how the human body responds to sport, exercise, nutrition and behaviour change interventions
- how to use these interventions to maximise health across the lifespan.

You will explore the development and implementation of activity, health promotion, and public health policy initiatives. You will have the ability to attain internationally recognised vocational qualifications which demonstrate a practical ability that is vital in post-graduate employability.

After you graduate

This course will give you the skills and knowledge for a variety of careers including: community recreation, health promotion, rehabilitation, clinical exercise therapy, research and workplace health and fitness, as well as regional and national level health-based intervention design and delivery.

www.brookes.ac.uk/physicalactivity

Social Studies, Earth Sciences and Psychology

When you study with us, you'll examine some of the biggest issues facing societies today. You could explore Japanese pop culture as an anthropologist and explore the human brain and its challenges as a psychologist. You could study desertification or smart cities as a geographer. You could even be working with a local MP as a politics student.

TOP 3 REASONS TO STUDY WITH US

1. You'll be **taught by world class researchers** – so your learning will always be underpinned by the latest developments in your field. You may have the opportunity to work alongside our research staff and undertake your own research projects.
2. You'll have **access to great resources** – like our bone and archaeological analysis lab, or eye-tracking equipment and facilities to measure brain activity.
3. You'll **graduate prepared for your future career** – with optional work placements, chartered membership opportunities and work experience modules on many of our courses.

UCAS tariff points 104

For further guidance on converting your grades to UCAS points, see page 157.

What you will study

On this course you'll explore some of the most pressing issues facing human societies today. You'll gain experience of both biological and social anthropology, and you'll have the option to specialise in one of these areas. You'll investigate social anthropological themes from global inequality and migration, to Japanese pop culture. You'll also learn about key biological issues like human evolution and primate conservation. Your coursework and assessments will develop transferable career skills – like written communication, data analysis and public engagement. Lastly, you'll get to know your course mates and tutors well, studying in small groups and seminars.

After you graduate

You'll emerge with transferable skills and experience relevant to a wide range of career options. Our graduates progress to a wealth of career fields, like the civil service, international development, charities and non-governmental organisations, conservation, journalism, museum and heritage management, and more. Our graduates have gone on to work for the British Museum, Oxfam and the Ministry of Defence.

“I didn't really know what Anthropology was when I first came. But I soon realised I'm fascinated by topics like primate conservation and evolution. I've had the best time.”

UCAS tariff points 104

For further guidance on converting your grades to UCAS points, see page 157.

What you will study

Explore some of the most pressing issues facing 21st century societies, like climate change, extinction and urbanisation. You'll be able to focus on human geography, physical geography, or both. You'll study topics like desertification, development, smart cities and nationalism. You'll examine environmental policy, or investigate our changing oceans and atmosphere. You'll also have the opportunity to undertake a work placement and your assessments will help you build skills directly relevant to the workplace – like written communication, analysing, reporting, and project management. Lastly, you'll be able to carry out your own fieldwork – in the UK or overseas.

After you graduate

You'll graduate equipped with skills for work – and our graduates have developed careers in areas like international development, catastrophe modelling, environmental management, conservation, leisure and tourism, teaching and more.

“If you're not sure about some modules, keep an open mind – you could end up loving them! I thought I was a Physical Geographer, but when I came to Oxford Brookes, I really enjoyed Human Geography.”

UCAS tariff points 104

For further guidance on converting your grades to UCAS points, see page 157.

What you will study

Examine world power relations and gain powerful insight into the world around you. On this course, you'll explore pressing global challenges – like poverty, the environment and human rights. You'll learn about 21st century warfare, you'll study how nations co-operate, and you'll examine the impacts of globalisation. You'll build essential skills for the workplace – like writing policy briefs and advocacy documents. You'll also develop transferable skills like written communication and project management. You'll study in a city that is home to major graduate employers – like Oxfam and Oxford University Press. You'll also be able to take a work-based learning module, where you'll have the opportunity to get work experience – in charities or in government agencies.

At Oxford Brookes, you'll study International Relations as a joint honours subject, alongside another selected subject.

After you graduate

You'll graduate ready for work. Our graduates launch careers in sectors like the diplomatic service, civil service, charity, government, teaching, publishing, journalism, trade unions, law and more.

“Without coming to Brookes, and being given the opportunity to study what I have, and being able to take the opportunities I have, then I don't believe I would have the job prospects I have today.”

What you will study

Psychology is the scientific study of human behaviour and experience. This course gives you the opportunity to explore wide-ranging topics. You will learn about different methods from the high-tech and hands-on, to the theoretical and introspective. Studying both everyday and diagnosable behaviours will give you an understanding of interactions between the brain, behaviour and experience. This means you will have the skills vital to any career, within or outside psychology.

After you graduate

This course develops interpersonal, practical and analytical skills useful for any career. You will be eligible for the Graduate Basis for Chartered Membership; the first step towards becoming a Chartered Psychologist. Many of our students, after further training, take up careers in:

- professional psychology including occupational and clinical psychology
- health sectors
- education sectors
- research and academia.

What you will study

Do you want to study the pressing issues facing human societies? When you study Social Anthropology, you'll explore everything from labour migration to religious practices. You'll investigate the cultural impacts of digital technologies – or examine the relationships between humans and animals. You'll also be prepared for a job market that increasingly demands person-centred and culturally-informed expertise. You'll be joining a close-knit and supportive department, where students and tutors know each other well. Lastly, since you'll work directly with leading researchers, your learning will be informed by the latest research in the field of social anthropology.

After you graduate

Our graduates have developed careers in sectors like international aid, non-governmental organisations and charity, management, marketing, the civil service, teaching, heritage management and more.

Graduates from this course have gone on to work for the British Museum, Oxfam and the Ministry of Defence.

What you will study

Would you like to explore how humans interact with each other? Or understand how our behaviour and values shape our society? On this course you'll examine some of the most relevant and compelling issues of our time – like gender, migration, 'race', human rights and consumerism. You'll build sought-after skills for the workplace, like project management, data analysis and interviewing – preparing you for the future. You'll also be joining a supportive and close-knit department, where it's easy to get support from your lecturers.

After you graduate

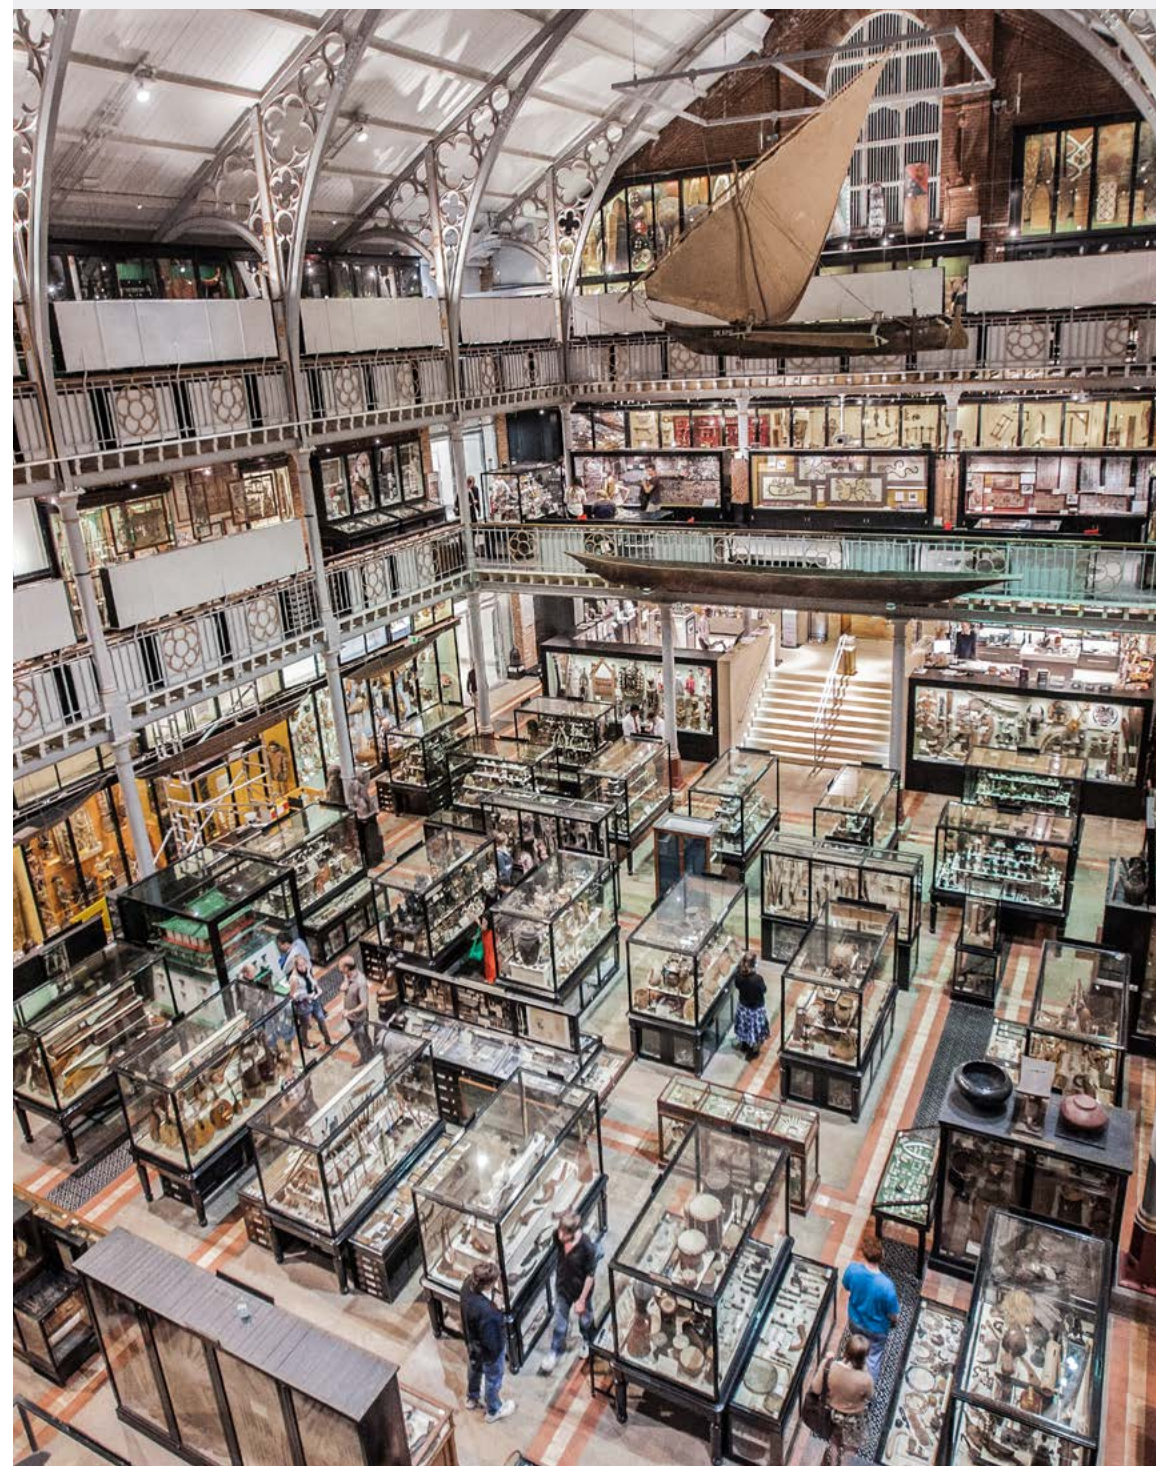

You'll graduate ready to jump into your career. Our graduates work in fields like international development, marketing, market research, education and social work.

"Before I started, I was worried... But the lecturers are always prepared to sit you down and talk things through. When they saw some of us were struggling with academic reports, they ran a workshop to help us."

SOPHIE KIRKMAN, GRADUATE

www.brookes.ac.uk/socio

Oxford's museums are home to some of the best documented geological, zoological and archaeological collections in the world.

Apprenticeships

Apprenticeships are an excellent alternative to full time university. They offer an exciting way to earn, learn and the potential to gain an academic award.

Apprentices are employed and receive a wage so you study while you work. At least 20% of your work time is dedicated to off-the-job training and learning via the university, typically you'll attend university part-time and/or study online. You'll also benefit from access to university resources such as the library and wellbeing team.

You'll gain the knowledge, skills and behaviours to confidently achieve a job role and benefit from a workplace mentor/supervisor to support you through your apprenticeship.

To find out more about apprenticeships, visit: www.brookes.ac.uk/apprenticeships

“I always dreamed of being a nurse, after three years as a healthcare assistant, I wanted to try and further my career.”

AMY STIRTON – NURSING ASSOCIATE APPRENTICE LEVEL 5, OXFORD UNIVERSITY HOSPITALS NHS TRUST

Oxford Brookes University offers higher and degree apprenticeships from level 5 to 7 so there are options to gain a master's qualification too. We also work with a number of colleges who deliver Oxford Brookes qualifications as part of degree or higher apprenticeship standards. Apprentices are awarded an Oxford Brookes degree or foundation degree as well as achieving the overall apprenticeship, which is delivered by the college as the main provider.

The following apprenticeships are currently available but please visit our website for an up to date listing and detailed course information: www.brookes.ac.uk/apprenticeships-on-offer

| Apprenticeship | Qualification | Level | Available start dates |
|--|---------------------------------|---------|-----------------------|
| Coaching Professional Apprenticeship | N/A | Level 5 | March |
| Chartered Surveyor (Real Estate) Degree Apprenticeship | BSc Hons Real Estate Management | Level 6 | September |
| Nursing Associate Higher Apprenticeship | FdSc Nursing Associate | Level 5 | September & January |
| Social Worker Degree Apprenticeship | BA (Hons) Social Work | Level 6 | September |

You apply through your employer, so ask them to contact our apprenticeships team and we can arrange a time to talk to them: apprentices@brookes.ac.uk

International pathways courses

Our pathways courses are designed to get international students onto their degree feeling prepared, confident and excited.

| Current IELTS level | Duration | Start date(s) |
|-------------------------------------|-----------------------------|----------------------------|
| 4.5 with at least 4.0 in all skills | 24 weeks (over 2 semesters) | September |
| 5.0 with at least 4.5 in all skills | 12 weeks (over 1 semester) | September, January or June |
| 5.5 with at least 5.0 in all skills | 6 or 12 weeks | June or July |
| 6.0 with at least 5.5 in all skills | 6 weeks | July |

PRE-SESSIONAL ENGLISH

Our pre-sessional English courses **help you meet the language requirements of your degree**, and can be combined with our foundation courses.

Pre-sessional English is taught in 6-12 week blocks at four different levels. You can take consecutive course blocks until you reach the

level required for your degree course.

If you need IELTS 6.0 with 6.0 in reading and writing, 5.5 in speaking and listening (required for most undergraduate courses), you can see in the table above approximately how long you need to study depending on your current and required language level.

Find out more at www.brookes.ac.uk/international/pre-sessional

INTERNATIONAL FOUNDATION COURSES

If you do not meet the minimum academic requirements for our undergraduate courses, you may still be able to apply for one of our international foundation courses.

Our foundation courses provide a bridge between school study in your home country and undergraduate study, and offer a guaranteed pathway to an undergraduate degree if you pass with required grades.

| Course | Duration* | Start date(s) | IELTS required |
|---|---|----------------------|-------------------------|
| International Foundation Diploma | 24 weeks | September or January | 5.0 (5.0 in each skill) |
| International Foundation Diploma (extended pathway) | 1 year (includes a semester of pre-sessional English) | September | 4.5 (4.0 in each skill) |
| International Foundation – Business and Technology | 4 years (foundation integrated with undergraduate degree) | September or January | 5.5 (5.5 in each skill) |
| International Foundation – Arts, Humanities and Law | 4 years (foundation integrated with undergraduate degree) | September or January | 5.5 (5.5 in each skill) |

*Duration listed is for full-time study unless otherwise specified.

To view our full range of foundation courses, please visit www.brookes.ac.uk/studying-at-brookes/courses/foundation-courses/

Find out more at www.brookes.ac.uk/international/pathways

Why choose an international foundation course at Oxford Brookes?

- You are guaranteed to progress onto the first year of a bachelor's degree by passing your foundation year with the required grades.
- Our core class sizes are kept small so you will get the attention you need.
- You will study and become friends with people from all over the world, making your time on your course unforgettable.

How to apply

Our friendly admissions team is here to help you through the university application process. How you apply will depend on what kind of course you are applying for, whether you want to study full-time or part-time and your start date.

You can apply for entry in September 2023 or for deferred entry in September 2024. Some of our courses also have a January intake, and you can find further information on the course pages of our website.

If you're applying for full-time study between September 2023 and September 2024, you should apply via UCAS and we encourage you to make sure you submit your application by their deadlines.

If you're applying for part-time study, you can apply directly to Oxford Brookes. For more information on applying direct, please visit: www.brookes.ac.uk/apply-direct

International applicants can either apply through UCAS or directly to the university. Please see our website for application deadlines. We also work with representatives and organisations all over the world who can advise you on study options at Oxford Brookes and help you to apply. Visit our website to find your nearest representative: www.brookes.ac.uk/international/country

Exam results

In July, awarding bodies release examination results for the International Baccalaureate and Access to Higher Education Diploma courses. In August, BTEC, A-level, T-level and other level 3 qualification results are released.

If your offer is conditional upon obtaining certain grades in other qualifications (for example, English language tests, or other international qualifications), you must send details of your results in writing by email to the Admissions Office. If you have met the conditions of our offer, UCAS or the Admissions Office will provide you with confirmation of this.

If your results do not quite meet the conditions of the offer, it doesn't automatically mean that you will not be accepted. Your application will then be given further consideration.

Clearing

If you are not successful, remember that it is still possible to apply for courses through Clearing. Courses that have not been filled by August will be put into Clearing and listed at www.brookes.ac.uk/clearing and at www.ucas.com.

You can get in touch with UCAS for more information about the Clearing system – www.ucas.com/clearing.

Enrolment

You should aim to meet the conditions of your offer by 31 August in the academic year in which you apply. If you are applying to a teacher education, healthcare or social work course, you'll need to complete additional steps necessary for you to study the programme (such as a DBS clearance) by 31 July. We'll explain this in the online course page for the courses you are interested in.

When we know for certain that you are coming to Oxford Brookes (when you have either accepted an unconditional offer or finalised an offer after meeting the conditions) we will send you details of how to enrol online. Once you have completed enrolment, you'll be given access to our online student system.

Entry qualifications and typical offers

We welcome a wide range of qualifications for entry onto our programmes. Our admissions team will help you work out your own combination of likely grades and qualifications, which can include credit gained from previous work experience or training.

Wherever possible we make our conditional offers using the UCAS tariff. Please see page 157 for a breakdown of how to calculate your tariff score. This gives great flexibility, particularly if you are offering a mix of qualifications, such as two A-levels plus a BTEC National Extended Certificate.

In many cases we don't specify grades to be achieved, because we are looking for achievement across a range of qualifications or subjects.

For a general guide to the grades required, please look at the online course pages.

** T-levels are a relatively new qualification but are already included in the UCAS tariff. We welcome prospective students who are taking this qualification to apply. For some programmes with specific required subjects, particular subject areas or occupational specialisms may be required.*

First degrees

Our standard entry requirement is three A-levels or equivalent qualifications. In some cases, courses have specific required subjects and additional GCSE requirements.

In addition to A-levels, we accept a wide range of other qualifications including:

- the Welsh Baccalaureate
- the Access to Higher Education Diploma
- a BTEC National Certificate, Diploma or Extended Diploma at a good standard and in a relevant subject
- the International Baccalaureate Diploma
- the European Baccalaureate Diploma
- Scottish qualifications – five subjects in SCE with two at Higher level or one at Advanced Higher level, or three subjects in Scottish Highers or two at Advanced Higher level
- a recognised foundation course (for our international foundation courses please see page 149)
- T-levels*.

Contextual admissions

At Oxford Brookes University, we want to attract students from all backgrounds who have the potential to succeed.

We seek to be a fully inclusive institution that reflects society at large, and provides an excellent student experience, a breadth of opportunities and successful outcomes for all students irrespective of their background.

Our Contextual Admissions policy forms part of our commitment to ensuring that all students with the potential to succeed at Oxford Brookes have equality of access.

It allows us to use a range of national and individual data to ensure that we are taking a rounded view of an individual applicant's potential.

It also supports us to make a reduced offer to students where the evidence suggests that their prior attainment may not be a full reflection of their future potential.

For more information see www.brookes.ac.uk/contextual-admissions

Medical and police clearance

All applicants who receive an offer for a teacher education, healthcare or social work course are checked through the Disclosure and Barring Service and the Independent Safeguarding Authority, and must have satisfactory occupational health screening in order to study.

International qualifications

We accept a wide range of academic qualifications from around the world. For specific entry requirements for applicants from your country, see www.brookes.ac.uk/international/country

If your academic qualifications do not meet these requirements we offer a range of international foundation courses (see page 149).

English language requirements

If your main language is not English, you will need to show us that your English is at the right level to enable you to study here successfully.

To start an undergraduate degree you will need to meet our English language entry requirements as well as the required academic qualifications:

IELTS band 6.0-7.0 or above (including 6.0 in reading and writing, and 5.5 in listening and speaking).

IELTS is one of the most common tests. For details of other English language qualifications we accept, please visit www.brookes.ac.uk/international/apply

Please note that courses require different scores within the range given, so please check individual course details on our website.

If you need a student visa to come to the UK you will need to meet the UK Visa and Immigration English language requirements – see www.brookes.ac.uk/international/apply

University English course (pre-sessional)

If you do not meet the required English language level you can apply for one of our pre-sessional English courses (see page 148).

UK fees and funding

At Oxford Brookes there are several options available to support you in funding your studies. Our course fees for UK students are £9,250* a year.

Loans for full-time UK students

You don't need to pay any tuition fees while you are at university. Instead, the government provides a tuition fee loan which you start to pay back once you leave university and are earning above £27,295* a year.

The government also provides a maintenance loan to contribute towards living costs.

You start to pay this back at the same time as your tuition fee loan. Your repayments will be 9% of any income above £27,295*, so the amount you repay each month will depend on your earnings.

Examples of monthly repayments for loans covering tuition and living costs:

| Salary | Monthly repayments |
|---------|--------------------|
| £27,295 | £0 |
| £30,000 | £20 |
| £35,000 | £57 |
| £40,000 | £95 |

Repayments will be taken automatically from your salary through the tax system. If your yearly income falls below £27,295 your repayments will automatically stop. All outstanding repayments will be written off after 30 years.

For more detailed information please visit our website www.brookes.ac.uk/funding

Part-time UK students

If you are thinking of studying part-time you will also be eligible for a loan to cover the cost of tuition and a maintenance loan for your living costs. You will only start to repay both once you have finished your course and are earning above £27,295* a year.

Foundation degrees

If you are a full-time UK student studying for a foundation degree with one of our partner colleges, you will be charged £7,570* a year. You may then have the option of topping up to a full bachelor's degree at the same college for one year's further study, also charged at £7,570*. If you come to Oxford Brookes to top up, you will be charged £9,250*.

Field trip costs

The cost of any field trips that form a mandatory part of your course are included in your tuition fees. Optional field trips are not included, and you will have to pay a separate fee.

Bursaries

Bursaries are additional sums of money that do not have to be paid back. Full time UK students with household incomes under £35,000 can benefit from our means-tested Oxford Brookes Living Bursary*. Students with household incomes under £25,000 from recognised postcodes and students who are over 21 can also benefit from an enhanced bursary of up to £3,000..

NHS Learning Support Fund

All UK healthcare students on courses will receive government funding of at least £5,000 a year which they will not need to pay back.

Government support for living costs

All UK students are eligible for a maintenance loan to help cover living costs. The amount you can borrow will depend on your household income. Full-time UK students with household incomes below £25,000* are entitled to a maintenance loan of up to £9,701*.

Further government support

Additional funding is available for disabled students, students with children and students with adult dependants. This funding does not need to be paid back. For further information, see www.gov.uk/student-finance

For more detailed information please visit our website www.brookes.ac.uk/funding

**All figures quoted are for 2022-2023 academic year. Please note tuition fees may increase in subsequent years both for new and continuing students in line with an inflationary amount determined by the government. Tuition fees for 2023 will be published by December 2022. Other threshold figures may also change for 2023-2024. See individual course pages on our website as they become available.*

International fees and funding

If you are an EU or non-UK student it's likely you will have to pay international fees.

For more detailed information please visit our website www.brookes.ac.uk/funding

EU students

Since September 2021, students from the EU have paid international student fees. We deeply value our students from the EU and we will continue to do all we can to welcome EU students long into the future. Therefore we are pleased to offer a support scholarship to EU students taking degree courses at Oxford Brookes, please search our website for more details.

International students

Fees for international students are set annually and the cost depends on the course you study. The tuition fee for one year's full-time undergraduate study in 2022-23 will be approximately £14,300 to £15,200. You will receive information about how and when to pay your fees before your course starts.

Tuition fee deposits

All international students will need to pay a deposit of at least £3,000 to secure your place at Oxford Brookes. This deposit will be deducted from your first tuition fees payment.

Find out more at www.brookes.ac.uk/international/applying-to-arriving/next-steps/

Funding and Scholarships

We offer a range of scholarships and other financial support to international students to help with tuition fees and living costs.

Find out more at www.brookes.ac.uk/internationalscholarships

UCAS tariff points and qualification terms

The charts below show you how to calculate your tariff score using typical entry requirements, as well as the different degree qualifications you can study for.

| UCAS TARIFF POINTS | EXAMPLES – HOW TO ACHIEVE THEM | FOUNDATION COURSES AND DIPLOMAS | |
|-----------------------------|--|---------------------------------|-----------------------------------|
| 136 | A-level: AAB/A*AC/A*A*D A-level: A*A* + Extended Project – A BTEC: DDD IB: HL 655 SL 444 T-level: Distinction | DipHE | Diploma of Higher Education |
| 128 | A-level: ABB/AAC/A*AD A-level: A*A + Extended Project – A BTEC: DDM IB: HL 555 SL 444 T-level: Distinction | FC | Foundation course |
| 120 | A-level: BBB/ABC/A*BD A-level: AA + Extended Project – A BTEC: DDM IB: HL 554 SL 444 T-level: Merit | FdA | Foundation Degree – Arts |

Useful things to know

Our Terms and Conditions

We have prepared detailed Terms and Conditions which describe the contractual relationship between you and the University. You should access this document on our website: please read it in full before you apply to Oxford Brookes, as it contains important information that applies to how your time as a student will be managed and arranged.

We want to ensure that all students can easily find and understand the policies and rules that will affect you.

Our Terms and Conditions therefore include reference to the University Regulations, which cover academic rules and regulations, and your Programme Specification, which describes more detailed arrangements for your programme, as well as other key policy documents. It is our intention to treat you fairly at all times, and to be compliant with relevant consumer and other legislation, but if you have problems with the provision that we make for you, the Terms and Conditions describe how we will respond to your concerns.

The most up-to-date information for your programme will be found prior to your enrolment on the University's web pages www.brookes.ac.uk, and once you have enrolled, in your Student Information (a self-service portal).

Please note that when you accept an offer of a place at Oxford Brookes (and enrol with us), you also accept the Terms and Conditions.

www.brookes.ac.uk/terms-and-conditions

Course fees and additional costs

Our tuition fees cover the cost of delivering your programme, and are payable annually. Further costs may be incurred by you, including:

- equipment and core textbooks
- bench fees and consumables
- DBS checks
- printing
- uniform or protective clothing
- contributions to subsistence, travel and accommodation
- costs for mandatory field trips or work placements and, where these involve overseas travel, health and public liability insurance (unless explicitly stated that these are included in course fees)
- professional body membership fees
- optional graduation-related costs such as gown hire, guest tickets, official photographs.

Many programmes include optional field trips and work placements, where participation is encouraged, but is not required to evidence module or programme learning outcomes, and will not disadvantage you should you not be able to take part. These optional activities are at additional cost to you.

Your annual tuition fees will cover your first attempt at all the modules necessary to complete that academic year of your programme. Additional modules, or module retakes, may incur an extra charge.

www.brookes.ac.uk/finance

Campus redevelopment

To ensure you have the best university experience, Oxford Brookes constantly assesses how its campuses are being developed and utilised. This ensures that our buildings and facilities are of high quality, well specified and

accessible to meet the needs of current students and those joining us in the years to come.

As part of our ongoing investment in our campuses there may be changes to our campuses, and improvements to the buildings within them, over the coming years including your time at Oxford Brookes. If this is the case, we will ensure that students and applicants are given plenty of notice to ensure a smooth transition to any changed use of our campuses.

The latest information will be provided on the University's website at www.brookes.ac.uk/estates-development/

Teaching locations

Within Oxford, the University operates across four sites (Harcourt Hill, Headington, Marston Road and Wheatley). The Headington Campus is the largest, on which the majority of programmes will have most of their teaching delivered. Some programmes are taught more frequently at the other sites (see course pages for more details), but all students may be required, at some point during their time at the University, to attend some teaching or assessment activities at any of the Oxford sites. There is a bus service that operates between sites in Oxford.

Equality, diversity and inclusion

We are committed to ensuring the very best student and staff experience, where all our community can flourish in a culture of respect and support and where we celebrate difference and thrive on each other's success.

www.brookes.ac.uk/staff/human-resources/equality-diversity-and-inclusion

About this prospectus

The University aims to provide clear and accurate information in line with guidance issued to higher education providers by the Consumer and Markets Authority on consumer protection law.

The courses and associated content listed in this prospectus were accurate at the time of going to print, but please be aware that due to the ongoing impact of the Covid-19 pandemic, the University may be required to make reasonable changes to the published course content. More detailed, contemporary information on any such changes will be published on our website course pages and, where known at the time, will be outlined in future offer holder correspondence.

Editorial and design

Strategic Marketing and Digital, Oxford Brookes University.

Thank you...

To the students, staff and graduates featured in this prospectus.

Comparing courses at other universities

Statistics are available for undergraduate courses at universities in the UK, helping you to compare and make the right choice about what to study and where.

Please be aware that, for some courses, data may be grouped to show results for more than one year or more than one course so as to meet the data thresholds for publication. This may apply to data appearing in this prospectus.

Open days and campus tours

The best way to find out if Oxford Brookes is the place for you is to come and see it for yourself!

- Explore our campuses and take a look at some of our accommodation.
- Get inspired about your future through one of our subject talks.
- Find out more from the academics in your subject area.
- Talk to the experts about applications, finance, support and more.
- Ask one of our Student Ambassadors what student life is really like.
- Discover our amazing student city.

OPEN DAYS

Find out more and book your place at [brookes.ac.uk/open-days](https://www.brookes.ac.uk/open-days)

“I fell in love with Oxford and the University as a whole when visiting on Open Day.”

HANNAH COOPER,
HISTORY GRADUATE

Campus tours

We offer both physical and virtual campus tours all year round. Check out our website for more details.
